Cultivation and Utilization of Oats.

[From the San Francisco Scientific Press.]

Oats, as well as wheat and other cereals, were undoubtedly derived, originally, from wild grasses, and owe their present perfection solely to care and cultivation. They are much more recent in their introduction than wheat or barley. We find no mention of oats until about the commencement of the Christian Era; although we learn from Scripture that *Solomon fed his horses on barley*. Caligula fed his favorite horse on "gilded oats out of a golden cup," from which circumstance we may reasonably infer that the grain was then very scarce and dear; probably just coming into cultivation.

The advantages derived from the cultivation of oats, arise chiefly from the fact that they are more easily raised in cold and wet climates than any other grain; probably because, as the seeds approach maturity, they assume a pendant position, allowing the sporules of fungi, or the ovules of larvæ to be easily washed off by the rain, or shaken off by the wind. The scattered position of the seeds also allows of a more free access to the ripening and fructify influence of sunlight and air. Oats, when allowed to run wild rapidly deteriorate; or rather more readily fall back into their natural state than either wheat or barley.

The disadvantages attending the cultivation of this grain are due to the fact that the nutritive substance is generally less in a given weight, and to the acre, than in any other cereal, although the gross weight of seed may be larger. Moreover, the composition of oats is more liable to variation than other grains, so that the feeding value is not constant or reliable. Climate, soil, seed, manure, etc., appear to affect the character of oats more than other grains. Some kinds are fully one-third more nutritive than others.

The chemical and nutritive character of all the various grains have been much studied of late years; and from such examination it appears that none but the best quality of oats will bear a favorable comparison with the other grains. The oat, when properly selected and cultivated, is rich in non-nitrogenized substances, such as go to keep up animal heat and form fat, and in that respect it is valuable for fattening animals; but this condition is present in excess, only when the grain is of a superior quality. The proportion of nitrogenized or flesh-forming substances is also greatly dependant on cultivation; and in good oats is larger than either wheat, barley, corn, rye or buckwheat.

The inference from the above is that oats should never be raised for grain feed, except when the utmost care can be taken in the entire cultivation of the plant. Hence greater advantages may be derived from "drilling in" oats, than any other kinds of grain. Among the advantages of drilling we may [illegible] the economizing in the quantity of seed; the giving of grain more air and sunlight, and the covering of the seed more uniformly in depth. We grain is more dependent on cultivation than the oat.

We have said that oats, when properly cultivated, are superior for their flesh or muscle forming qualities, a very important consideration in making animals. The leaf and stem of this plant also contains a much larger portion of flesh forming [illegible] than the same parts of any of the other cereals. It is to this fact that our California wild oats owe their superiority when used for hay.

Oats are [illegible] improved in their nutritious qualities for [illegible] by grinding than other grains; for [illegible] they require more mastication [illegible] when used for feed, after [illegible] will not take to mouthing [illegible] should be [illegible] of animals [illegible] from grain [illegible] in a whole [illegible] not only [illegible] derived from it, but it also [illegible] to the system.

The [illegible] now most generally cultivated [illegible] the United States are the New [illegible], the [illegible] (newly introduced) [illegible] Scotch, introduced through [illegible] Agricultural Bureau, and the [illegible], a new English oat, remarkable for its [illegible]. All these belong to the [illegible]. Then we have the Tartarian [illegible], the Potato, the Hungarian, and the [illegible]. These are generally considered [illegible] first rate. We have also the Naked oats *Avena nuda*, and the Chinese, two [illegible] varieties, quite similar in [illegible], and which are highly spoken of. In addition to [illegible] we are not less than [illegible] known to botanists.

With [illegible] to the Norway oats, we are in doubt [illegible] that they [illegible] hardy in most [illegible] that read, and is due to the extreme [illegible] plan adopted for their advancement, [illegible] rather than to their intrinsic [illegible]. The result of some of the experiments we have been quite unsatisfactory, while in [illegible] they are returned. Some spurious seed has also no doubt been sold. It is possible that the diverse results may be due to certain [illegible] in this plant, which we will endeavor to notice next week.

A few days since, says the Hannibal (Mo.) *Courier*, [illegible] a shirt in a Hannibal dry goods store, and gave directions [illegible] to a young man who would call for it. The young man soon appeared [illegible] the apparel in the store. He [illegible] the widow and the two [illegible] the Recorder and straightway [illegible].

The Oregon *Times* says of the $100,000 damages awarded to Miss Amanda F. Craig, that probably in his right mind can feel the least doubt that she would much rather, at any price of the [illegible] than to have taken the plastic old Sibyling Biraphon who [illegible] sat his [illegible] al on the 43 storey of [illegible] in the most [illegible] orthography that [illegible].

Proposals for Boating Stone.

SEALED PROPOSALS WILL BE RECEIVED AT the Office of the Superintendent of Construction of the U. S. Custom House at Portland, Oregon, until 12 o'clock M., on the 27th day of July, 1869, for Boating 750 cubic yards of Stone from the quarries opposite Astoria to the wharf at Portland.

The Department will load the boat at the quarries and discharge at the wharf at Portland and pay wharfage.

Proposals will be made by the cubic yard of Stone, inclusive of all freight, measurement to be made by the Superintendent on delivery, and 10 per cent of all payments retained until completion of contract. Payments in U. S. Currency. The delivery of materials will begin immediately on the signing of contract and continue in such quantities and at such times as may be directed.

The Department reserves the right to reject any or all proposals. All bids must be accompanied by a bond of two responsible persons in the sum of $2,000 as security that the bidder will accept and perform the contract if awarded to him. The sufficiency of the security to be certified to by the U. S. District Judge.

Proposals should be endorsed "Proposals for Boating Stone," and addressed to E. St. John, Superintendent U. S. Custom House and Post-office, Portland, Oregon.

FACTS WORTH KNOWING!

IF YOU WANT TO BUY A FARM YOU EXAMINE the soil, the lay, the locality, the title and the price. If you want to insure your life, examine the workings of the Company before you invest.

If you examine you will

INSURE IN THE

NEW ENGLAND MUTUAL

LIFE INSURANCE COMPANY!

WHY?

BECAUSE you get your first DIVIDEND to HELP PAY YOUR SECOND PREMIUM. You do not have to wait 3 or 4 years for the distributions.

BECAUSE we have NO STOCKHOLDERS to draw from 12 to 20 per cent on imaginary CAPITAL STOCK (per sons promises to pay) amounting from $30,000 to $50,000 annually.

Because the NEW ENGLAND is a Mutual and is a Home Company in all our broad and beautiful country; an American Institution—the first one founded on the PURELY MUTUAL plan on this Continent.

BESIDES it is the only Company offering you the protection of the Massachusetts Law.

For example: A person aged 35, insures for $1,000, pays $26 50, say on the 1st July, 1869. Were he to die on the 4th July, 1871, 2 years and 3 days after, his policy would be paid. Thus:

Say amount Policy is	$1,000 00
Deduct two annual payments he has not paid, $26 50 each, and interest	54 62
The family would receive	945 38

No Snap Judgment here. This is what we call EQUITABLE and MUTUAL.

Five annual payments keep the Policy in force 10 years and 56 days.

Policies on which Note has been given for one-third of the Premiums.

Five payments will continue in force nearly five years after payments have ceased.

On ENDOWMENT POLICY the time is prolonged in proportion to the amount paid.

Take the statements of no solicitor for other Companies of our benificent workings, but call and satisfy yourselves. We will be pleased at all time to communicate every information.

THE

New England Mutual

Is the only Company on this Coast that offers the above advantages to Policy-Holders.

The above examples are facts that are incontrovertible, and will be proven to the satisfaction of all persons calling on our agents.

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp. St. Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO.

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our *Hygeian Home* and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhœa or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchical and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks, Board, Room and Treatment (in all ordinary cases)

N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsus Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay fully warrant us in declaring that *there is not one female in a hundred who* is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure. From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife of the time, means or trouble they expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well.

Terms for Ladies, $20 a week, or $100 for six weeks (Board, Room and treatment).

DR. SMITH gives FREE Lectures to his patients every Wednesday evening, and also Lectures before the *Ladies' Hygienic Society the first Wednesday in each* month.

BARLOW J. SMITH, M. D.,
Proprietor and Consulting Physician.

R. S. MACBETH, M. D.,
Attending Physician. jun9d2m&w4t

IN THE CIRCUIT COURT OF THE STATE OF Oregon for Multnomah county.—S. N. Arrigoni and Elisabeth D. L. Arrigoni, Plaintiffs, vs James P. O. Lownsdale, Millard O. Lownsdale, by James P. O. Lownsdale, his general guardian, Ruth A. Lownsdale, by John A. Blanchard, her general guardian, Wm. M. Cooper and Mary E. Cooper, his wife, John R. Lamb and Kimma S. Lamb, his wife, and Ida Squires, by Wm. M. Cooper, her general guardian. To Ida Squires, one of said defendants. In the name of the State of Oregon: you are hereby required to appear and answer the complaint filed against you in the above entitled suit, by the first day of the next term of said court which shall convene six weeks after the first publication of this summons, to-wit: on the 8th day of November 1869, and if you fail to answer the plaintiffs will take judgment against you, and a decree determining your claim to that real estate in the city of Portland, Oregon, known as lots (1) one (2) two (7) seven, and (8) eight in block (249) two hundred and forty-nine, and excluding you from any estate or interest therein, and quieting plaintiff's title thereto and for general relief prayed for in the complaint.

By order of Hon. W. W. Upton, Judge
W

The Daily Oregonian.

IMPROVEMENT IN TIME TABLES.—The people of this State who came overland, way back in the forties, were on the road from the frontier settlements to the Willamette valley, most of them not less than five to six months, while some were even longer than that making the journey. After the discovery of gold in California, and when the road had been made better, by the building of bridges and ferries, people used to get over here in four months; an occasional party in three months—a wonderful shortening of time. As people came to be more familiar with the best methods of traveling on the plains, even this time was improved upon, and now and then a party would arrive in July or August, having made the trip with mules, from settlement to settlement, in sixty days. When this came to be done frequently, it was considered that "crossing the plains" was no very great undertaking after all. But the emigrants who did this generally had money, and money made the mare go. To the lower and middle classes of emigrants, the overland trip to Oregon, under any circumstances, was still a pretty serious undertaking. It required for a year or two beforehand, close saving to get the means. Then the trip always, even if made in three months traveling time, was very nearly equivalent to the loss of a whole year's labor, as nothing except getting ready could be done up to the time of starting, and very little could be done after arriving beyond getting under shelter of a rude log cabin, for the winters. Practically, to every emigrant of these classes, there was a year's time lost, immense labor and care endured, and a fresh start in the world to be made after getting here. A few people of ample means came by steamer via Panama and San Francisco, at the cost of forty to fifty days' time and a small fortune in money. This was the shortest route till the Pacific railroad was completed. Now how changed! Now, the emigrant or visitor steps on the cars at Chicago or Omaha, course over and plants his feet in the streets of Portland in twelve days. The visitor may, if he choose, see something of every State and Territory on the Pacific slope, except Arizona, and return to Chicago within the month. It is really a great thing to have accomplished, to shorten the overland time tables, from *one hundred and eighty two days* to twelve. But to us of Oregon, this remains to be bettered; we must yet be able to travel between Omaha and Portland, on passenger trains, in six days; and it will be done within the next half decade. The most of us who now rejoice in the fact that we can do it in twelve days, will live to see hell that time annihilated forever.

TRAIN.—The following is by telegraph from Geo. Francis Train at Celilo, July 15:

MOTTO OREGONIAN

Veni! Vidi! Vici! Arrived at what Capt Ainsworth has named the Train fishing ground, at 6 A. M., and bagged with net and hook and spear, in two hours and a half, 113 salmon—Bonis 58—171 in all, worth in New York one thousand dollars. This is more than the Ainsworth-Reed party, Congressional Ways and Means party and Northern Pacific Railroad party captured all together. Three cheers for Civis Americanus Sum. What does Lorysa say now. Ho! and behold when this news goes forth to the children of men, fishermen will come from the uttermost parts of the earth to catch salmon at the Dalles, and Oregon shall become known and be a power in the land. We leave the Indian maidens curing salmon while the braves are playing "poker," as usual. Woman suffrage has no show among the Indians. My acknowledgments to Ainsworth, Reed and Holliday for steamboat hospitalities. Grouse and rabbit hunting this afternoon. Third lecture at Dalles to-night. Arrive at Portland 5 o'clock to-morrow afternoon—Saturday night Salem—then home. My wife and babies for my holiday at New Port, R. I.. Down then by the sounding sea. Is it not remarkable that I should be the first white man to introduce salmon fishing at the Dalles? Before the Indians had it all their own way. There are probably one million salmon within a stone's throw. E Pluribus Unum, Go Bragh! GEO. FRANCIS TRAIN.

TRAIN—APPLEGATE.—It had been talked here for two or three days that Mr. E. L. Applegate was willing and, withal, perhaps, a little ambitious to meet George Francis Train on the lecturer's stand, and to combat some of Mr. Train's peculiar propositions. However this may be, there were many of our people who spoke of such a meeting as likely to happen and who really desired "Lish" to go in. No meeting, however, took place, as Applegate went to the Dalles with the Congressional Committee, while Train was here. The Committee and Lish, coming down, met Train going up. Train had heard of Lish, and more than likely had been told that Lish had an itching to get after him. The two met at the Cascades, on Wednesday, and were introduced, when without warning or prelude, Train fired off an "Epigram" on Lish's name, and followed it up by about ten minutes of his peculiar forked-lightning style of talk, while Lish, taken completely by surprise, stood with his pug hat cocked back on his head, mouth wide open, and hands thrust in his breeches pockets, unable to wedge in a word edgeways. When Train had concluded, Lish, drawing a long breath of relief, remarked to one of his party: "Well I guess I don't want any of Train ins taken." This is the story we hear, from one of Lish' admirers, too, and whether true or not, it is not a bad one.

GOLD MINES IN CLARKE COUNTY.—A resident of Vancouver, who was in this city yesterday, informs us that there is considerable talk at that place about the supposed discovery of new gold mines, about thirty-five miles back of Vancouver. But little is actually known about the discovery, except that about three weeks ago a party of prospectors went out into the mountains; that about a week ago they came in and obtained fresh supplies of provisions and went back again. They showed some of the gold they had obtained, but would give no information concerning the locality of the diggings they had found, nor the amount they were able to make per day. The mystery attached to the movements of the party, naturally creates some excitement, many people supposing that a good thing has been discovered, which the party wishes to keep from general discovery.

FROM RAINY.—The *Unionist* says: The late rains have caused the river to rise about four inches at this place.

Mr. Mem. Chapman has been appointed District Deputy Postmaster at the Salem Postoffice. He will enter upon his duties on Monday next.

Bishop Morris, of the Episcopal Church, has in contemplation the erection of a first class Seminary, for young ladies, at Corvallis. We are informed that sufficient encouragement has been given to insure the success of the enterprise. Such an institution would add greatly to the educational facilities of the State, and should receive aid and encouragement from citizens of every denomination.

WHEAT AND FLOUR.—The San Francisco *Bulletin* says: Our receipts of California and Oregon flour and wheat, reduced to the basis of wheat, for the three harvest years ending June 30, 1869, compare as follows:

	1866-67.	1867-68.	1868-69
California...centals...	5,327,909	5,501,044	6,597,582
Oregon.....	444,643	547,405	365,253
Totals.....	5,971,652	6,048,449	6,932,035

TO BE KEPT OFF THE SIDEWALKS.—There was some talk the other night of introducing an ordinance prohibiting the running of velocipedes upon the sidewalks; but the old ordinance respecting obstructing or running carriages, etc., on the sidewalk, was examined and found to contain all the legislation that is necessary on that point. Marshal Saunders informs the velocipedists that they must hereafter keep off the sidewalk, or he will have to try conclusions with them, before the Recorder.

THE WORK TO BE RESUMED.—Capt. West informs us that he has got the dredger and snag puller in excellent condition for service, and that he hopes to get to work again about the first of next week, in the channel at the mouth of the river. If no changes have been made in the channel by the current, since last fall, the work on that bar will be completed in a short time.

INFORMATION WANTED of George Zollikoffer. Any person giving information of the whereabouts of the above mentioned will confer a favor upon his anxious father, who has not heard of his son for twelve years. Address Rev. George Ketting, Dubuque, Iowa.

REPORTED SHOOTING OF A MAN.—It was reported in this city yesterday, that a man named Remington, formerly of this city, was shot through mistake the evening before, in the neighborhood of Vancouver. He was mistaken for a deer or bear. We have no reliable particulars.

MARINE INTELLIGENCE DELAYED.—We did not receive, on Wednesday night, the memoranda and passenger list of the steamer *Gussie Telfair*, till the forms for the morning paper had been made up; hence the delay of its appearance till this morning.

THE NORTH PACIFIC RAILROAD PARTY.—A telegram from the Dalles, yesterday, states that the railroad exploring party had left for Helena and Fort Benton. Some of them tried their hand at Salmon fishing before leaving the Dalles, with fine success.

TOWED DOWN THE RIVER.—The steamer *Okanagan*, shortly after her arrival from below, yesterday, started back to tow the *Almatia* to Astoria. The bark will go to sea at once if the weather be favorable.

VELOCIPEDE RAFFLE.—Mr. Louis Chemin, who has the best velocipede ever brought to this city, proposes to raffle it off—fifty chances at two dollars and fifty cents each—raffle to take place as soon as the chances are all taken.

A VESSEL BOUND IN.—When the *Gussie Telfair* came into the river, a three masted schooner was seen making her way in. She is supposed to be the *Meldon*, some time over due from New York.

PERSONAL.—Mr. Garfield came down from the Dalles on Wednesday, and took passage by the steamer *Oriflamme* for Puget Sound, in company with the Congressional Committee.

HARVEST HANDS.—We hear that almost everywhere, up the valley, harvest hands are scarce and farmers are offering good prices.

THE BARK WHISTLER.—This vessel will drop down the river this morning to Springville, where she will take in some produce and then proceed down the river.

REGATTA MEETING.—The Regatta Club will have a meeting this evening, at the usual place and hour.

PIG IRON.—One hundred tons of pig iron were put into the bark *Whistler*, yesterday, for San Francisco.

G. F. TRAIN *preaches* but does not always *practice*—for he patronized the Oregon Dispensary and used our medicines to cure his hands that caught those *large* Salmon. Since his lectures on DOCTORS and DRUG STORES, we have had an unprecedented run for our numerous remedies, toilet articles, etc., etc. It has been said that Mr. Train was induced by us to deliver that lecture, but we assure our numerous patrons that we do not use such means to obtain patronage. We do the largest trade because our Druggists are the most, competent and our medicines and goods are fresh, pure and cheap.

LORYEA & KALLENBERG,
73 First Street.

SHERMAN'S ACCOUNT OF THE MARCH TO THE SEA.—In his address at West Point the other day Gen. Sherman thus alluded to his famous "march to the sea":

I have oftentimes been asked by friends familiar with Xenophon, Hume and Jomini, in which of these books I had learned the secret of leading armies on long and difficult marches, and they seemed surprised when I answered that I was not aware that I had been influenced by any of them. I told them what I now tell you in all simplicity and truth, that when I was a young lieutenant of artillery I had often hunted deer in the swamps of the Edisto, the Cooper, and the Santee, and had seen with my own eyes that they could be passed with wagons; that in the spring of 1846 I had ridden on horseback from Marrietta, Ga., to the valley of the Tennessee, and back to Augusta, passing in my course over the very fields of Allatoona, of Kenesaw and Atlanta, where afterward it fell to my share to command armies and to utilize the knowledge thus casually gained. Again, in 1849 and 1850, I was in California, and saw arrive across that wild belt of 2,000 miles of uninhabitable country the caravans of emigrants, composed of men, women and children, who reached their destination in health and strength; and when we used to start on a journey of 1,000 miles, with a single blanket as a covering and a sack of parched corn meal as food. With this knowledge fairly acquired, in actual experience, was there any need for me to look back to Alexander the Great, the Marlborough, for example?

SHERE ALI.—The Governor General of India lately made a great military display in honor of Shere Ali, the African chief, whose friendship is important to Great Britain for the retention of the Indian Empire. Ten thousand troops were on parade, and the scene was enlivened by the music of numerous bands and the thundering of artillery. Presents valued at $50,000 were made to the Ameer. The oriental chieftain is described as having a Jewish face, the peculiar feature of which is the eyes, cold and cruel as poet ever described or painter ever reproduced. His past life confirms the impression made by them. The Ameer expressed his delight with the "terrific" dress of the Highlanders, but remarked on his indecency. He was charmed, like a true mountaineer, with the bagpipes of the Scotch, and considers them the finest of soldiers. But the Irish seemed more to his taste, for, when told that that people are so fond of fighting they will fight with each other when they can get no other enemy, he shouted, "That is capital, that is like my people; that is after my own heart."

AN EXCELLENT OPPORTUNITY is now offered to buy dry goods very low at the store of KOHN & FISHEL, who positively will sell all their dry goods at cost, being determined to close that branch of business. A call at their store, No. 91, Front street, will save a purchaser at least twenty per cent.

EVERY DAY, at No. 107 Front street, one door above McCormick's, you can see KANE'S CONDENSED SOAP wash *without rubbing*.

Vigilance Hook & Ladder Co., No. 1—Drill this evening at 7½ o'clock, sharp. All members are requested to be present.

NOTICE.

WE TAKE PLEASURE IN CALLING the attention of dealers to a valuable Patented Improvement in Electro Plating spoons and Forks, by which those parts subject to wear receive an

EXTRA COAT OF SILVER!

THREE TIMES THE USUAL THICKNESS.

At the back of the handle, front of the oval and points of bowls of spoons—back of the handle and breast and points of tines of forks, as illustrated in cut.

This mode of Electro Plating greatly supersedes the old way of plating. The great advantage will be readily seen, as spoons and forks always wear through on these exposed points, while the plate is yet good on other parts of the article. This new process will add THREE TIMES TO THE DURABILITY of goods so plated.

Knives, forks and spoons stamped "1847 ROGERS BROTHERS AI XII," are Electro Plated by the new Patented Process.

We have now been before the public since 1852, manufacturing ELECTRO-PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfaction, supplying, as it does, all of the advantages of silver in durability and beauty. We wish to call particular attention to the hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. All goods plated on this metal bear our trade mark, and the plating is warranted THREE TIMES THE USUAL THICKNESS.

G. VENARD.
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed full confidence for the excellent quality of his Coffee, has nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his Coffee, which, however, and in the markets of the interior, a slight higher price, excites the cupidity of some manufacturers, and every day he sees them offering themselves of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only as to the favorable opinion of the consumers, the very highest though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and put them their guard against this practice.

BEWARE OF COUNTERFEITS.

Each package bears the signature of G. VENARD.

The Daily Oregonian.

FRIDAY MORNING JULY 16 1869

Statistical Information.

The county assessors throughout the State are now busy at their work. It is unfortunate that provision has not been made in the law to collect each year through their agency some statistics of the leading productions and industries of the State. Their present duty is simply to ascertain the value of property for the purpose of taxation; not to collect any statistics of the class which belong ordinarily to census work. It is, indeed, made the duty of assessors once in ten years to take an enumeration of the inhabitants and industrial products of the State; but the last enumeration was taken in 1865 and is of no value now except as a sort of basis for estimates. Next year the United States census will be taken; but judging from the delay which has hitherto been experienced in getting the results of a United States census before the country, it will be an indefinite time before we shall be furnished from this source with detailed statistics. The present is the very time when special information relative to the products and industries of our State is needed. Much might be done towards collecting useful information of this character by the assessors who are now at work, With very little trouble they might prepare figures which would serve as a basis for approximate estimates of the amount of wheat, oats, wool, lumber, etc., produced this year, the number of cattle, sheep and horses in the State and a variety of other information which could be made useful in furnishing persons abroad with an idea of the productions of Oregon and the state of its industry. Any one who can obtain reliable information of this description will confer a favor and assist in the important work by transmitting such statements as he may be able to prepare to Hon. A. J. Dufur, Portland.

Treatment of Americans in China.

Until civilized nations forced their way into China the people of that country were living in a state of seclusion from the rest of the world and refused all intercourse with foreigners. But civilized nations, coveting the rich spoils, broke into the busy hive, and now the population comes swarming out. We sought intercourse with China; China did not seek intercourse with us. The influx of Chinese into this country, of which some of our people complain, is therefore our own fault. It began under a Democratic Administration and has continued to this time. Americans in China enjoy special privileges. Is it probable these will be continued unless the brutality with which Chinese are treated in America is stopped altogether? When Americans are aggrieved in China they can appeal to the consular courts with a reasonable assurance that justice will be done them. If Americans have goods to take into the interior the imperial revenue laws discriminate in their favor. The empire waives its jurisdiction at Shanghai in favor of our laws and regulations. But in this country Chinese have neither courts of their own nor rights in ours. This unfriendly discrimination against them has been borne with singular patience; but can we suppose that special privileges will always be granted to our people in China if we allow Chinese in this country to be treated with injustice and brutality? Oregon, we are glad to say, has not been disgraced with such outrages upon this unoffending people as are constantly occurring in California; yet there are demagogues here who, for political effect, are encouraging the idea that the Chinese are the enemies of the white working classes, and thus inculcating a feeling which may sometime break forth in violence.

A Forward Step.

The New York *World* once more takes an advanced position. It sincerely hopes that its party will not repeat the "unfortunate blunder" of last year. It comes very near advising no further opposition to the Fifteenth Amendment, remarking that it is not wise to make Northern white men continue to vote as the Democratic party by "an obstinate and abortive attempt to prevent negroes from voting at all." The argument is continued in this style:

There is no reason why we should despair of controlling a part of the negro vote; but it is quite certain that we cannot oust the negroes from the privilege of voting in season to derive any party advantage from their exclusion. Now, the men who have heretofore acted with the Republican party approve of negro suffrage; and they are not likely to carry over to us so long as we insist that that issue is not settled. But if, by accepting the situation, we recruit hosts of former Republicans into the Democratic party, we can easily, by using them as missionaries, *bring over quite a proportion of the negroes also.* Since, do what we will, we cannot prevent the negroes from voting, it is wise to pursue such a course as *will induce some of them to vote on our side.*

So we have it from this high authority that the true policy of the Democratic party is to humble itself in the hope of getting a portion of the negro vote. From which we infer that the negro, in the estimation of the leading journal, has entirely lost the odor which has hitherto so vilely offended the nasal organs of the Democracy. But as the masses of that party can see no other issue but the gentleman from Africa, they will not even yet take the *World's* advice. That paper is, however, undoubtedly right in saying that the "faculty of political leadership consists in forming such opinions now as the whole party *must* entertain year after next."

DARIEN AND NICARAGUA.—The *Alta California* states the fact that the scheme for constructing an inter-oceanic canal across Nicaragua and Costa Rica is assuming some importance of late, has aroused the people of Panama to the danger that exists that their neighbors may secure that projected highway, and leave the Isthmus far behind in the race of material prosperity. The Isthmus of Panama, unfortunately, is not an independent sovereignty, and when the proposition to have a canal made across the Isthmus, by the United States, was laid before the central Government of Colombia, it failed of receiving the approbation of the Congress. Rumor hath it that sufficient money was not laid out in lobbying, but, at any rate, the whole scheme fell through so far as the Colombian Congress was concerned. And now the Panama *Star*, indignant at the sluggishness and apathy of the officials of the United States of Colombia, declares that if Nicaragua obtains the canal, as it may, the Isthmus will relapse into a state like that in which it was found by the early emigrants to California. The *Star* further threatens the Government that it it refuses to lend its sanction to the Panama route, it will advocate what it deems to be the next best—that of Nicaragua. It certainly looks now as if the Nicaraguans were likely to forestall all others in the matter of a canal across the continent, and one can well sympathize with the *Star* in its contemptuous amazement at "the little Government at Bogota," whose refusal to approve a plan for the Isthmus canal has so much disappointed all who wish well for the country

In General.

Oregon is a State which ought to be ashamed to import anything which can be produced outside of the tropics. Yet Oregon continues to import large quantities of butter, vegetables, soap, starch, buckets, baskets, furniture, wagons, plows, leather, and even axe-handles. But it will not be so always.

The Oakland Cal. *Transcript* states that evidence is fast accumulating to prove that there is an organized band of house burners in that State, who are following their nefarious business with great success. It says that every loafer who comes along pretending to want work and grumbling because Chinese are employed should be rigidly watched.

The "Tammany programme" was to have General Hancock nominated by the Democrats for Governor of Pennsylvania, and in the event of his election the Presidential nomination in 1872 was to be at his disposal. But this programme has been spoiled by Hancock's defeat in the Convention and by the nomination of Packard, a thorough devotee of Copperheadism.

There are two legislative bodies in this country of which it is said they have no debates. The one is the New York City Council, the other is the Legislature of Utah Territory. The latter never debates, because it does just what Brigham Young wants it to, the former because it is the pliant and docile creature of Tammany. Neither body is celebrated for honesty or any other virtue.

While at Oregon City the other day we noticed a considerable number of Chinese at work in the woolen factory. It was the proposed employment of Chinamen in this factory which excited the mighty controversy that took place throughout the State several months ago. Nothing is more certain than that these people will make skillful operatives. They go at the work with amazing tact and quickness.

There are at present in the State of Illinois eighty-seven wool carding mills, and one hundred and thirty-three manufactories of woolens, with a capital of $3,600,000, invested in buildings and machinery, and employing 3,450 operators—one-fourth of whom are women—and consuming annually 4,000,000 clipped from over 2,500,000 sheep. The investment of capital in woolen mills and factories in the State is steadily increasing. The tariff now existing is the groundwork of this activity and prosperity.

An exchange, in noting the fact that the public debt has already been reduced by nearly forty millions since Grant became President, eulogizes Secretary Boutwell, says speculators have denounced and threatened, flattered and combined, but the "small trader of Groton (Mass.)" has triumphed. He has carried out the policy of Grant. He has done the people's will. He has wrung admission of his competency from those who have disgraced themselves by deriding him. Yet his success is susceptible of a very simple explanation. It is that he has attended to his proper business, and avoided Johnson's great policy of using the Treasury in the interests of politicians and rogues.

Mr Seward's Prediction.

One of the most noticeable features of the exercises at San Francisco on Independence Day was the following speech delivered by Wm. H. Seward:

Fellow Citizens: In the response which you have the right to expect, you must not hope to find any Fourth of July oration. For many years I have had an excuse for that. I have prepared a Fourth of July oration; I have had it prepared for some time, but the time for its delivery has not yet come. It will come when three Pacific railroads, instead of one stretch their iron rails across this continent; it will come when I see these vast alkali plains between you and the corn fields and prairies of Illinois, or to bound them more accurately, between the Sierras and the Rocky Mountains, covered with trees and vegetation, a vast field for the support of the immense population which is crowding to your shores; it will be when the star of empire which has come this way, toward the land of the setting sun, after the pioneers of the Pacific, shall shed its light, north to our boundaries in the Arctic ocean and south till its rays mingle with those of the Southern Cross in the tropics. This period I anticipate not to be very distant. I hope all here will live to see it. I hope I will live to see it. I think it is only about seven years away from us now. I think it will have taken place by 1876—the year of the hundreth anniversary of American Independence.

These are the words of the philosophic statesman who, by forecasting great events on so many former occasions, has shown us how clear and strong is his vision. He foresees these magnificent results just as clearly as he foresaw the "irrepressible conflict" and the way through it to national safety, honor and prosperity. Let us hope that his life may be spared to deliver that Fourth of July oration, when the whole American people will be his auditors.

Reduction of Taxes

The reduction of the public debt during the fiscal year ending 30th June was about fifty millions, four-fifths of which has been accomplished since General Grant's Administration came into power. Yet internal taxation, as compared with that of former years, has been greatly diminished. The following comparative tables of receipts from internal revenue and from customs for the past four years are interesting:

	Internal Revenue	*Customs*
Year ending June 30, 1866	$309,226,813	$179,046,651
Year ending June 30, 1867	266,027,537	176,417,810
Year ending June 30, 1868	191,087,589	164,464,599
Year ending June 30, 1869	138,287,176	182,000,000

The internal revenue figures illustrate to what extent Congress has responded to the demand for reduced taxation, and they also demonstrate that further efforts in that direction must be controlled by great wisdom and discrimination. The decrease in the receipts for 1869 is almost wholly attributable to the repeal of the tax on manufactures at the second session of the Fortieth Congress. This tax yielded in 1867-68 over $39,000,000 and was wiped out at one blow.

THE WEST

The San Francisco *Herald* don't get the telegraphic dispatches any longer. Too poor to pay for them.

During the fiscal year ending June 30th, the Branch Mint at San Francisco coined $19,916,000. The year previous it coined $14,509,000.

Two steam propellers are to be built for revenue service on this coast. Bids for their construction will be received at Washington till the 21st of July.

A San Francisco paper says that "if the Trades Union persist in their efforts to keep boys out of the workshops, the worse for the Unions. The people of this city, outside of Union men, are unanimous on this point.

Internal Revenue receipts for San Francisco District, for the year ending 30th June, were $3,364,161. The previous year they were $3,125,751. There has been a falling off during the past year of $1,762,000—a startling diminution.

The experiment of boring an artesian well near Los Angeles (Cal.) has proven wonderfully successful, a forty inch stream of water, being obtained by a well only sunk forty feet. Nothing could be more encouraging than this to the agriculturists in that vicinity.

By Overland Telegraph.

DISPATCHES TO THE OREGONIAN

DATES TO JULY 13.

Washington News

WASHINGTON, July 14.—Specials say an important case is before the Court of Claims growing out of claims of deserters for bounties. The practice of the Government heretofore has been to refuse to pay any men reported as deserters. It is now claimed that no person can be considered a deserter until tried and convicted by a court martial. The Government resists these claims, which involve only 20,000 or 30,000.

The tax levy in Washington for the coming year rates at $1 40 per $1 000 on the valuation.

One of the colored churches in Alexandria held a meeting on Monday to see what should be done with members who voted the Conservative ticket at the recent election. The church Treasurer was among the offenders and he was removed from office. A long and exciting debate ensued on the question of turning all the offenders from the church. Action was not reached.

W. Ford, of Mississippi, is here in behalf of the Conservative Republicans of that State. General Sherman this morning received assurance that the administration in Mississippi will be impartial. The military officers who conducted the registration for election in Virginia will be sent to Mississippi for duty.

New York News.

NEW YORK, July 13.—Rumors are current that Col. Ryan and his men had succeeded in running the blockade at Gardiner's Island last night and are on the way to Cuba. No official information has been received, but the report is generally credited.

A card numerously signed by leading brokers, bankers, business men and hotel proprietors of this city is published, recommending a suitable national expression in commemoration of the completion of the Pacific railroad, and that a national convention of delegates representing railroads, boards of trade, and commercial exchanges be supplemented with a gathering of people, musical festival, military parade, etc.

HAVANA, July 13.—Steadman, Consul of the United States to Santiago, died in that city on the 6th inst.

Miscellaneous.

WASHINGTON, July 14.—Attorney General Hoar has decided that the commencement of the main line of the Pacific railroad is at the hundredth meridian, longitude west from Greenwich, and terminates at the eastern boundary of California.

The great Decatur cotton case, embracing the value of fifteen hundred bales of cotton, has been decided against the Government at Memphis. Secretary Boutwell has ordered the case to be carried up to the Supreme Court.

The employees of the sub Treasury presented Van Dyke, the retiring assistant Treasurer, with an elegant rose wood escritoir, valued at $500, as a testimonial of their esteem.

Chinese Labor Convention

MEMPHIS, July 13.—The Chinese Labor Convention met to day. Gov. I. G. Harris, of Tennessee, was chosen permanent chairman. A telegram was received announcing that Koopmanschap would arrive to morrow, whereupon the Convention adjourned.

MEMPHIS, July 14.—The Labor Convention met at Wallach's. The audience was large—chiefly planters and land-owners of the neighboring States. The Finance Committee reported in favor of a Joint Stock Emigration Society, with officers at the principal cities, promising welcome and protection to all emigrants from China and elsewhere. The Transportation Company reported that emigrants can be brought from the Pacific States to Memphis in lots of 500 and over for $500 each, and from Hong Kong to San Francisco for $80 to $100 each. Or Rem Orr, a Chinaman, twenty-one years in the country, residing in Louisiana, addressed the Convention. He stated that over 5,000 Chinamen are now in the West Indies. Much distress prevails because they were not selected with proper care. He proceeded to describe the habits and peculiarities. He thought them well adapted to Southern plantations, the products of China being in many ways similar to those of the Southern States. Koopmanschap also addressed the Convention, stating that his house brought thirty thousand Chinese to California, where sixty thousand are now engaged in general and railroad work. They were paid from ninety cents to one dollar and ten cents per day in gold as laborers, and can be induced to come here for twenty dollars per month, but they can be obtained cheaper in China. Under a fifteen years' contract they can be had at from $10 to $12 per month. The Convention adjourned till to-morrow.

St Louis Dispatch.

ST. LOUIS, July 13.—The South Missouri railroad bridge at St. Charles, will be pushed rapidly forward and completed within a year. Work has been temporarily suspended on account of high water.

Henry R. Whitmore, Secretary of the St. Louis grain movement, leaves for Europe soon on business connected with the through grain movement.

Saratoga Dispatch

SARATOGA, July 13.—The State Temperance Convention met to day and passed resolutions urging temperance. Also the passage of a law allowing the majority of voters in any city or town to prohibit intoxicating liquors from being sold.

The Women's Suffrage Convention also met today, Miss Anthony temporary chairwoman.

Fires.

PHILADELPHIA, July 13.—The Third Reformed Church, on Gilbert street, was damaged $1,000 by fire to day.

TROY, July 13.—The walls of the coal depot of the Troy Gas Co. fell in this morning. From the coal falling on a red hot retort a fire was kindled, but was extinguished before the flames attained much headway. Loss, $5,000.

New Orleans Dispatch.

NEW ORLEANS, July 13.—The sugars under seizure have been appraised on a gold basis at nearly $200,000. Custom officers express the opinion that the parties will not be able to furnish the required bonds.

Collector Stockdale has seized a large number of cigars within a few days. About $100,000 worth, belonging to one of the largest importing firms in the city were seized to day.

Flood in Kansas

LEAVENWORTH, July 13.—Full accounts are published of a great flood at Paoli. The loss of property is very great. Streams near Paoli rose thirty feet in a few hours, carrying off mills, houses, fences and everything capable of floating. Paoli looked like an island in a lake. Many horses and cattle were drowned. Crops in the bottom lands suffered severely. The flood subsided on Monday nearly as rapidly as it rose. Many heroic deeds were performed in saving lives.

War Against the Indians.

CHICAGO, July 12.—An Omaha special says General Augur has received dispatches from Gen. Carr, with the expedition on the Republican, to the 11th inst. A large village of Cheyennes was taken by surprise. Fifty warriors, commanded by Tall Bull, were taken. Seventeen women and children were among them, of whom Tall Bull's wife and daughter were taken prisoners. The warriors held two white women captive on the Sabine as prisoners. They murdered one, name unknown, and attempted to murder another named Maria Weigel. She will probably recover. The Indians were so completely surprised that they were unable to carry off a single package. They left most of their saddles and provisions. Carr captured 350 horses and mules, 10 lodges, 80 rifles and pistols and a number of camp equipages.

General News.

BALTIMORE, July 13.—The rehearsal and concert to day were overdrowded. They were successes in every particular. The grand chorus by from twelve to fourteen hundred singers was much applauded. The next meeting will be in New York in 1871. To morrow will be devoted to picnics and amusements at the grounds of the Schutzen Club.

ST. LOUIS, July 13.—The banquet to night to Hon. Henry T. Blow was a splendid affair. Among the guests were Baron Wagelhaus, the Brazilian Minister. The large dining room of the Southern Hotel was elaborately decorated.

GALVESTON, TEXAS, July 14.—Special dispatches from Columbus, Texas, say the Colorado river is higher than ever known before. The water rose 47 feet 8 inches. It is now falling slowly. The whole valley is under water. Crops are destroyed, and the railroad between Alleytown and Columbus is washed away for several hundred yards and numbers of persons have been drowned below Columbus. Alleytown is six feet under water. Dead bodies have been seen floating past there. The water cut off Dunnevar and other plantations at Eagle Lake. The occupants are supposed to have perished. At La Grange the water is 6th four feet deep in the public square. It is rumored that Boustrop and Webersville have been washed away and many lives lost.

CHICAGO, July 14.—A *Tribune's* New York special says the *Evening Post* publishes a list of the names of bills that passed the Legislature by bribery. It promises to give the list of those who entered the Legislature. It is a new and rich affair and creates much excitement in political circles. The same paper commments on the recent leaks in the Treasury Department, and says the profit of members of the New York Central Stock Co. alone since the commencement of the policy of selling bonds will reach $5,000,000.

NEW YORK, July 14.—T. C. Morehead, a representative of the Commercial Convention of Memphis, held on the 15th of May, sails to-day, to lay the results of that body's deliberations before the Chamber of Exchanges of the principal cities of Europe.

The communion service of the Plymouth Church, Brooklyn, was stolen by a sneak thief.

L. B. Childers died at Brooklyn last night.

A confederate thief walked off with a box of cash from Seaman Bank, on Monday evening. Both thieves escaped. The box was subsequently found in an entry with $25,000 in national negotiable notes. $10,000 in Government available bonds were gone. No arrests made.

A Richmond dispatch to the *Herald* says when Gen. Canby commanded in South Carolina, and when the reconstruction elections were held, he not only inaugurated Gov. Holden immediately, but directed the members elected to the Legislature to be admitted on taking the test oath. It is now claimed that according to his own construction, Gov. Walker, of Virginia, should be inaugurated immediately and the test oath to members be suspended.

Wade Bolton was shot in front of the Court Square this evening by Dukens. It was a continuation of a family feud of over ten years' duration, which has already caused the killing and crippling of over a dozen persons.

SPRINGFIELD, Ill., July 14.—Benj. W. Foster was sentenced to State prison for life, for rape on a girl 11 years old.

SPRINGFIELD, July 14.—Mrs. Ormansbee, a widow, living on East High street, was shot dead by a burglar, at 4 o'clock this morning.

HAVANA, July 14.—The remains of Consul Steadman were interred to-day. Seventy officials with the civil, military and foreign bodies, followed the body to the grave.

The weather is very hot and dry and there is much sickness throughout the island.

MANSFIELD, Ohio, July 14.—The State Prohibitory Convention met to-day and moved the adoption of a platform in Convention at Chicago, of September 1st. They nominated a full ticket of State officers as follows: For Governor, E. Ingersoll, of Cuyahoga. Lieut Governor, Wadsworth, of Cincinnati. Treasurer, Thos. Edmundson, of Clarke county; Attorney General, J. A. Simmons.

HARRISBURG, July 14.—The Democratic State Convention nominated Asa Packer for Governor.

BY ATLANTIC CABLE.

BREST, July 13.—A dispatch from the *Great Eastern* dated yesterday, announces her arrival off Miquelon, but a dense fog prevailed, in consequence of which she has been unable to find the shore end of the cable with which to make the splice. The deep sea cable will probably be cut and buoyed to prevent accident till the fog clears.

Later—The cable has been cut and buoyed. No communication received through it since last night.

LONDON, July 13.—The debate on the Irish Church bill was resumed in the House of Lords last evening, when it was moved that the bill be read a third time three months hence. Derby hoped the Lords would firmly resist all attempts of the Commons to modify the amendments. Further discussion ensued, after which Lord Clancy Cartes' amendment was withdrawn and the bill read a third time. The question then recurred, shall the bills pass. The Earl of Devon moved an amendment of the omission clause, permitting the bishops to be retained in their seats. Earl Gray, on the part of the Government, supported the amendment. Lord Cairn opposed any amendment. He thought it was no great anomaly to allow bishops to retain their seats; that the bill itself was altogether an anomaly of novelties. After further discussion the Lords divided, for amendment 180, against 82. The announcement was greeted with cheering.

LONDON, July 16.—Following the example of the Tories, the Liberal party are now reorganizing a number of meetings in favor of the disestablishment of the Irish Church. They are advertised to be held in various parts of the kingdom.

PARIS, July 13.—It is officially announced that the Senate will be convened August 2d. The session of the Corps Legislatif will be immediately prorogued.

The resignations of Ministers have been accepted, but they will continue to hold office until their successors shall be appointed.

The Thiers party, deeming the message of the Emperor satisfactory, have withdrawn the proposed interpolation.

The *Des Debates* to day, commenting on the political reforms promised by the Emperor, thinks it impossible to underrate their meaning and unjust not to be grateful for the Emperor's concession.

NEW YORK, July 14.—A special to the *Herald* from Paris, says the resignations of Rouher and Lavalette have been accepted. The other members of the Cabinet remain. The new ministry will be transitional. M. Emile Oliver refuses a position for the present, but will probably accept in the end. The radicals are indignant at the programme of the Legislative body.

BREST, July 14.—No signals were received by the cable from the *Great Eastern* since the dispatch on Monday. It is supposed an accident has occurred.

BELGRADE, July 13.—The new Constitution has been promulgated and received with much enthusiasm by the people.

LISBON, July 14.—The South American steamer brings dates from Rio to the 14th of June.

It was reported in Rio that the allied forces had fought a decisive battle with the Paraguayans and achieved a complete victory.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, July 15.—Shortly after five o'clock this morning, while John Burns, of the regular police, with his little son, were walking up Washington street, near Brenham Place, two men named Miller and Harris, approached him. Harris demanded his money. Burns showed his star and told Harris he would arrest him. A struggle ensued and Harris broke away and fled. Burns followed and when ten steps distant fired, the ball striking Harris in the back of the head, killing him instantly. Burns gave himself up at the police station, where the charge of murder was entered against him. Miller was subsequently arrested on the charge of highway robbery. Harris was a bad character and has figured extensively in the Police Court.

An affray occurred in a dance cellar on Pacific street last night, during which a man named Burke was stabbed twice in the arm by a boy named Bloom. The latter was arrested, charged with assault with intent to kill.

A party of French Republicans gave a banquet last night at the Irwin House, on Montgomery street, in honor of the anniversary of the fall of the Bastile.

Miss Anna Dickenson's lecture last evening was attended by an immense audience.

The Chicago commercial party will arrive in this city to night.

Capt. Jas. Carson and Col. John W. Winters, of the Second Brigade, state that their names appended as witnesses to Capt. Wasson's charges against Gen. Hewston were placed to that document by parties unauthorized to do so.

The California State Telegraph Company have declared their usual tri yearly dividend, of one dollar per share, amounting to $25,000 payable immediately.

New York Markets.

Gold opened in New York to day at 136¼ and 136¾.

Five twenties of 1862, 124, of 1867, 120¾.

No arrivals.

NEVADA

VIRGINIA, July 15.—The *Daily Enterprise* suggests that if the police can't put a stop to high way robberies in our midst, the people must take the matter in their own hands.

The work of raising water from the old north shaft of the Yellow Jacket mine was commenced to day noon. It is 300 feet deep and above the 700 foot level and will take about ten days to get it out.

Gov. Blasdel has commissioned Hon. J. G. McClinton as Judge of the 8th Judicial District.

It is confidently stated by those who profess to be informed as to the plans and policy of Governor Bullock, of Georgia, that he will speedily convene a special session of the General Assembly, with a view to ascertain the purposes of that body in regard to the eligibility of negroes to office, now that the Supreme Court of the State ha sprononced its judgment.

Harry S. Harmon, a colored man, has been admitted to practice law in Florida. The East Florida *Banner* says he is the foremost man of his race in the State.

WM. R. SEWALL and J. B. SPRENGER

Take this method of notifying their friends, the traveling public, that they have disposed of their interest in the Western Hotel and hereafter will continue to manage the COSMOPOLITAN, which in the future as in the past, will always maintain its reputation as the BEST and only FIRST CLASS Hotel in the city.

SEWALL & SPRENGER, Proprietors.

Portland, July 1, 1869. d1f

GEO. B. COOK

Would notify his friends and the traveling public, that he has disposed of his interest in the Cosmopolitan Hotel and proposes, with Mr. S. D. SMITH, to keep the WESTERN HOTEL in better order, and set a better Table, than is or ever has been in the Hotel he was for merly connected with. GEO. B. COOK

☞ No disagreeable smell from the river at the Western Hotel.

NOTICE.

PORTLAND, OREGON, July 1, 1869.

MR. S. D. SMITH takes this method of notifying his friends and the Traveling Public that he has again taken the WESTERN HOTEL, associating with him MAJ. COOK, and will in future endeavor to keep it in First Class style. It is their intention to commence at once Repairing, Refitting and newly Furnishing the House throughout, making it second to none in the State. Give us a call and satisfy yourselves that what we say is true.

S. D. SMITH & CO.

NEW TO-DAY.

WHITE'S NEW MAP

OF

WASHINGTON TERRITORY!

WEST OF THE CASCADES.

OLYMPIA, W. T., May 24, 1869.

THE UNDERSIGNED WOULD RESPECTFULLY solicit subscriptions to enable them to publish a MAP OF WASHINGTON TERRITORY West of the Cascades, compiled from the United States Surveys and the best and latest authorities. The scale is four miles to an inch, making the map sixty seven by fifty one inches. In addition to the topography of the country, the map shows the extent of the Surveys, the Indian and Government Reserves, the Prairie lands, the soundings of the principal harbors, and many other particulars not given in previous maps. THE SUBSCRIPTION PRICE IS TEN DOLLARS; RETAIL PRICE, TWELVE DOLLARS. The map will be furnished, colored, mounted and complete, by August. It was forwarded in March to the establishment of Colton & Co., New York, for publication.

Subscriptions may be forwarded to Joseph Cushman, Receiver Land Office, Olympia; W. C. Painter, Walla Walla; A. G. Cook, Vancouver; S. J. McCormick, Portland, who will receipt.

We call attention to the following endorsements.

HAZARD STEVENS,
CHAS. A. WHITE.

ENDORSEMENTS.

OLYMPIA, W. T., March 27, 1869.

C. A. WHITE, Esq.—*Dear Sir.* Having examined your original map, embracing that portion of Washington Territory west of the Cascade Range, I desire to add my testimony to its value. Having been engaged for a number of years in the surveys from Cape Flattery to the Head of Puget Sound, I have examined this portion of your map more critically than others, and I take pleasure in vouching for its general correctness.

This map will fill a want that has long been felt, not only among the residents of this Territory, but others, who are desirous of obtaining information of this portion of the "Far West," and I trust that we shall soon see it in a form suitable for general distribution.

JAS. S. LAWSON,
Asst. U. S. C. S.

We endorse the annexed opinion of Jas. S. Lawson, Esq., and will add that Mr. Chas. A. White is a practical surveyor, and has had access to the township maps in the two Land Offices in this Territory, as also the Coast Survey charts; and we can vouch for his map of Washington Territory, west of the Cascade Range of Mountains, as being correct, and the only good map of the same territory that has been made.

JOS. CUSHMAN,
Receiver in Land Office at Olympia, W. T.
E. MARSH,

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. E. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN

DATES TO JULY 15.

Massachusetts Liquor Law.

BOSTON, July 15.—The German Citizens' Rights Society has petitioned Governor Claflin to stay the enforcement of the prohibitory liquor law till a vote of the people be taken.

Woman's Rights

SARATOGA, July 15.—The Woman's Convention adopted a constitution similar to that of the National Suffrage Association. It was addressed by Mrs. Wilbur and Miss Anthony and then adjourned.

Washington News.

WASHINGTON, July 15.—James Wilson has been appointed Government Director of the Union Pacific Railroad vice James Brooks, and Geo. F. Terry, of Nevada, as Register of the Land Office at Austin, Nevada.

The President to day issued a proclamation designating November 30th as the day for submitting the new constitution to the voters of Mississippi. The clauses of disfranchisement and ineligibility to hold office are to be submitted to a separate vote. Also the portion of the test oath in article 12 and the clause prohibiting loaning the credit of the State in aid of any association or corporation. The proclamation directs the manner of taking the vote on the constitution and separate clauses as in Virginia.

Democratic Nominations in Pennsylvania.

HARRISBURG, July 15.—The names of Asa Packer, Gen. Hancock, Gen. G. W. Cass and Gen. Wm. McCandless, were presented before the Democratic Convention for the Governorship. The latter was withdrawn after the 1st ballot. The second ballot stood Hancock 19, Cass 47, Packer 68. Hon C. L. Russing, of Cambria Company, was nominated for Supreme Judge.

New Orleans Dispatch.

NEW ORLEANS, July 14.—Several arrests were made to day of persons engaged in defrauding the Revenue. Among them is Deputy Surveyor Chas. B. Keeth. There are a number of other affidavits against parties implicated. More arrests will be made.

Whisky Frauds

BOSTON, July 15.—Joseph J. Bates, convicted in the District Court of manufacturing stills without paying the tax, was sentenced to imprisonment for one year and a fine of $1,000. Bates sold only old stills for illicit distilling and then informed on the distillers, making money in both ways.

The action against Edward Lynn and Michael Weaver, distillers, at Reading, Pa., resulted in favor of the Government.

Martin Bellymer, who was convicted recently at Williamsport, has been sentenced to six month's imprisonment and a fine of $1,000. Allman, who plead guilty, has not been sentenced.

NEW ORLEANS, July 15.—Proceedings against Deputy Surveyor Keith are suspended to await the result of the depositions on his part, which are expected to make some very important disclosures.

August Contaire was arrested this evening by Marshal Packard, on a warrant from Commissioner Urban, and paroled until to-morrow morning. Collector Casey labors under a heavy disadvantage in the prosecution of these cases on account of the absence of District Attorney Morgan, who has gone to Europe, leaving the office in charge of a clerk at a time when efficient legal aid is necessary for the interests of the Government. It is the universal opinion of United States officers here that able special counsel should be appointed by the Government for the cases, on account of the large number of persons implicated and the immense amount involved.

Singing Festival.

BALTIMORE, July 15.—The first prizes for singing were awarded to the Leiderkrans, of New York, and the Maennerchor, of Philadelphia; the second prizes to the Hoboken Club and Washington Saengerbund. Each received a piano. The societies then proceeded to the Schutzen Park to hear addresses and sing.

Boston Tract Society.

BOSTON, July 15.—An adjourned meeting of the American Tract Society of Boston was held to-day. After a lengthy discussion, the proposition to dissolve the Society, dividing the assets among three denominations interested, and to reunite with the New York branch or sustain its present independence, were finally tabled and the meeting adjourned.

Miscellaneous.

BALTIMORE, July 15.—Col. Latimer, one of the defenders of Baltimore in 1814, died yesterday, aged 72.

GALVESTON, July 15.—The oxen were sent out from Harrisburg, Texas, with boats to rescue the sufferers by the flood in Colorado valley, who had taken refuge in the tree tops near Eagle Lake, and who had been two days in that position. It is said that the water is two feet over the tops of the telegraph poles on the farms in Eagle Lake valley.

The Indians.

REPORTED VIEWS OF GEN. SHERMAN—INDIANS OFF THEIR RESERVATIONS TO BE TREATED AS OUTLAWS.

[Editorial correspondence of the Lawrence (Kansas) Republican.]

WASHINGTON, Sunday, June 20, 1869.

In a former letter I intimated that I might give, more in detail, Gen. Sherman's views as to the means for preserving peace on the frontier. His policy is characterized by that directness, force and eminent practical sagacity that governs him in all his public and official acts, whether as to the heroic leader of an army in its magnificent march to the sea, or as the head of a military department or bureau in the time of peace. Sherman says the four great Indian reservations are well defined and marked out; that upon these the Indians must be colonized, where, if the "Government chooses to feed them with sugar plums," to use his own expressive language, "it can do so: but off from these reservations they must be considered as outlaws, and to kill a member of these wild, hostile tribes off these reservations is not to be considered murder, and the party killing need not wait for an overt act of arson, depredation or murder to have been committed in order to justify a premature and summary sending of the wandering nomad to "the happy hunting grounds." The fact of his being off the reservation is *prima facie* evidence that he means murder, and in self defence the white settlers, whether as individuals or organized bands, are justified in killing such Indians so roaming about the country without any "local habitation or a name." With the present diminution of the army it is extremely difficult to spare any troops from the East to protect the frontier, but if Gen. Schofield shall certify that the troops under him are inadequate to the exposed frontier, authority will be given to raise and equip volunteer militia. In addition to this, Sherman thinks the sheriff and other police officers in the frontier counties should at once organize a force under their command to act as a police force for protection, and to co-operate with the Government, but acting practically independent; so far as their own movements are concerned in the wiping out of all Indians who may be seen within their precincts. In other words, the Plains Indians have no right to be within the geographical limits of Kansas, and, if so found, can be treated by the police force, by the citizens, by the military, by everybody, as public enemies.

Political.

It is said that General Stokes will take ground in favor of calling a Convention in Tennessee, and at once enfranchising everybody in the State

The Boston *Post* says the lessons the Democratic party has learned ought to be profited by, and it points out the new path—a liberal platform, living issues, prudent speech and right nominations.

The Jackson *Clarion* urges that a proportional number of colored delegates be elected to the Mississippi Democratic State Convention, should one be held.

The *Cynosure*, the organ of the Anti Secret Society movement, published in Chicago has obtained a paid circulation of 3,300, almost enough to meet its current expenses. The late Anti Secret Society Convention resolved to raise the subscription to five thousand as speedily as possible.

GENERAL NEWS ITEMS.

For once since the rebellion closed, Texas sends greetings to the nation in the shape of an abundant wheat harvest.

Chief Justice Chase has gone to spend the heated term at the White Sulphur Springs of Virginia, which is a prominent resort for rebel politicians.

The new territorial seal of Wyoming bears an elk's head a shield, a train of cars, and agricultural implements, artistically arranged, and the device is "Let us have peace."

It has transpired that the appointment of Judge Robeson to the Secretary of the Navy was made on the joint recommendation of his predecessor, and Senator Cattell, of New Jersey.

The children of the public schools of Philadelphia have contributed and collected enough money to pay for a monumental statue of Washington. The monument is completed and paid for.

The journals of the Southwest and the great Mississippi Valley hasten to hail John Chinaman, the coming Man of the Period; and it is not theoretical but practical imagination which points their paragraphs.

In the Craig Sprague breach of promise case, where the damages were $100,000, the Court at Wheaton (Ill.) lately intimated, on a motion for a new trial, that where there was some doubt, the verdict would not be disturbed on account of excessive damages.

Some San Francisco capitalists who own a recently-discovered guano island about 700 miles west of the Sandwich Islands, and who naturally wish to dispose of it to other parties who can immediately turn it to profitable account, are about to sell the same to some English capitalists.

R. W. Raymond, Commissioner of Mining Statistics, is now on his travels, collecting materials for his next annual report to Congress. We learn from the Colorada papers that he was in that region about the middle of June, and that he would soon proceed to the mines still further westward.

A recent English writer insists that the day is not far distant when "protection to native industry" will be forced upon the British Government; but what will it avail as long as the soil of the realm is held by a comparatively small number of proprietors, and as long as labor has no future?

A general movement is on foot in the Eastern States against the usury laws. Their modification throughout the country is only a matter of time. Legal rates of interest are necessary in order to check abuses, but parties should be left free to contract where the nature of their investment will warrant a higher rate.

There need be no fear that the Democratic party will fail to secure such supplies of folly as will continue to insure its defeat. Here, now, for example, is Golladay, Democratic member of Congress from Kentucky, coming out (according to the report in that excellent Democratic authority, the Louisville *Courier*) "squarely in favor of *repudiation*, without any circumlocution whatever."

Michigan forests can hardly hold out long against the enormous drafts made upon them every winter. There is one jam in a river of the State and its branch sixty-two miles long. The lower end is in the Titibawassee river; but no one could have expected that logs should get through a river with such a crooked name without sticking.

An important movement is on foot among leading Southern men to incorporate the several immigration societies into one, and so extend their sphere of action. The scope of the new design takes in the effort to secure a Government subsidy in aid of a Southern steamship line to Mediterranean ports and those of the East, via the Suez Canal.

The new prohibitory liquor law of Massachusetts differs little from its predecessor, except that cider is left free, though it cannot be drank where it is sold. Pure liquors for medical and kindred purposes are to be supplied from Boston by a State agency, with branches at each county seat. There will be town agencies, under proper restrictions, where the people choose to have them. Massachusetts had a prohibitory law for years. In 1867 a Legislature was chosen which repudiated prohibition and returned to license. We have now the rebound—prohibition re-enacted by a vote of two to one. We shall soon have the next rebound—those who re-enacted prohibition being overwhelmingly defeated in the elections.

The Whitman Massacre.

We have been requested to publish the following resolutions adopted by the Congregational Association of this State at its recent session at Salem:

EXECUTIVE DOCUMENT NO. 38.

Your Committee to whom was referred Executive Document No. 38, of the 35th Congress, 1st Session, House of Representatives, respectfully report:

That they have carefully examined said document, and to their surprise find that, while published under the authority of the Congress of the United States, as though a report of J. Ross Browne, it contains only 12 pages of matter prepared by said Browne, 53 other pages consisting of matter first published by a Roman Catholic newspaper in New York City, and afterwards issued in a pamphlet prepared by a Jesuit Priest by the name of Brouillette. This pamphlet purports to give a true account of the Protestant Mission involved in the Indian massacre of 1847, in which Dr. Whitman and 14 others lost their lives and the mission were broken up.

Your Committee find from the overwhelming evidence, from the testimony of different United States officers, civil and military, and from other citizens of the most reliable credibility, that this portion of said Congressional document involved in it so many prominent and absolute falsehoods as to give a most erroneous impression to the whole, and to cast most fallacious and infamous reflections upon the characters of the devoted and faithful missionaries of the American Board there laboring at that time

It positively appears that this Jesuit Priest, Brouillette, was, as he himself admits, present among the Indians at the time of the Massacre, and at the very place, and was actually baptising the children of the murdering Indians while the outrage was going on, and in the presence of unburied bodies of the victims, and in hearing of the screams of the suffering prisoners. That Roman Catholic Priests did carry arms and ammunition to the hostile Indians, and that when Capt Rogers intercepted this ammunition at the Dalles, the Priests did vigorously threaten that all the Catholic Indian tribes, French and Hudson Bay men would attack the little garrison and settlements if he dared to take the arms and ammunition.

Your Committee believe, from evidence clear and sufficient to them, that the Roman Catholic Priests did themselves instigate violence to the missions resulting in the massacre and that this pamphlet, so most strangely published by Congress, with no rebutting statements accompanying it, was prepared by them to throw the blame of the massacre upon the American missionaries

Your committee conclude by presenting for your adoption the following resolutions:

Resolved, That as members of the Congregational Association of Oregon, and long acquainted with the surviving members of the Oregon Mission of the American Board, we believe them to have been, and to be, persons of veracity and of sincere Christian devotion and of unquestionable benevolence in their labors to civilize and Christianize the Indian tribes.

Resolved, that their labors redound immensely to the promotion of all American interests on this coast, if not indeed to the preservation of the country to the American Union.

Resolved, That we learn with great satisfaction that the Rev. H. H. Spaulding has collected authentic documents for a truthful history of the whole matter, conclusively refuting the foul statements of the Jesuits.

Resolved, That we respectfully ask of Congress that, as this erroneous pamphlet of a foreign emissary of the Pope of Rome has, under their sanction been given to the world, so a candid and truthful account of the matter thus treated of, may also be published under their sanction in a like Congressional document.

Resolved, That from acquaintance with facts for the last twenty years, and other clear evidence, we believe that the missionaries, contrary to the statements made by Congress, did not abandon the mission at Lapwai, but were forced away by the war, and that those who have since been anxious to return, have been steadily excluded by Government officials, even to having their houses pulled down, and the agents of the Board threatened with violence of they persisted.

O. Dickenson, I. V. Blakeslee, Elkanah Walker, Committee. G. H. ATKINSON,
Moderator of Oregon Association.

ATTEST
CHESTER N. TERRY, *Clerk of Congregational Association of Oregon.*

Circular Letter of Inquiry.

The following circular letter of inquiry has been issued by the general agent of the Northern Pacific Railroad:

OLYMPIA, W. T., July 9, 1869.

To

DEAR SIR: It is the intention of the Board of Directors of the Northern Pacific Railroad Company, to invite the attention of people, and especially Eastern capitalists to Oregon and Washington Territory—and invoke their aid and co-operation in the greatest work of the age—the construction of the Northern Pacific Railroad—and as an important auxiliary, the populating and developing this section of the Union.

On my return to the East, the result of the observations of the party accompanying me, will be made public, together with such data and statistics as can be collected. Your earnest attention is invited to the following specialties, on either or all of which, your knowledge and views are solicited.

LUMBER RESOURCES.

Extent, number of Mills respective capacity—kind of power used—amount and kinds produced—where shipped or used—prices—capital and number of hands engaged—at mills or in logging.

Spars & Piles—amount shipped.

Timber Land—amount that will average—feet of standing timber per acre. In fine, carry out illustrating the lumbering capacity of the region—referred to by you.

FISHERIES.

The kind of fish and localities for—facilities for operations—opportunities and inducement for investment—extent of present operations—what kind of fishing—where and what—amount of capital employed—number of vessels, stations and hands employed—statistical reports—facilities of increase—where fish are used or shipped—future prospect of fisheries as a business of Puget Sound, Columbia river, or North West Coast.

CLIMATE

of the Sound—of the locality in which you reside—be full upon this subject—illustrate on maps—logic data—capability to support stock out of doors in winter—any products of garden—thickness of ice—depth of snows—exceptions of either, or any special instances showing the exceptions of the seasons.

AGRICULTURAL PRODUCTS.

As to cereals, annual yield—maize and garden vegetables.

FRUITS,

kinds and flavor—Is your locality a fruit-growing section—what kinds succeed, &c.

SHIP BUILDING.

Any data or statistics are coveted.

WOOL AND WOOLEN MANUFACTURES.

Capability for raising sheep, product of wool—cost, &c.—price obtained facilities for manufactories—water power, &c., &c.

COAL.

What kind—wealth of veins—where located and area.

IRON ORE,

kind and where found—extent of operation, &c.

By the above you will easily see the object. Will you be good enough to write us fully on any of the above topics, among any other which may occur to you, as your time will permit. It is desirable to have these matters in press early this fall. I have therefore to request, you will furnish what information you can, so as to reach me before the 1st of September next.

A Quiet Life.

A little crib beside the bed,
A little face above the spread,
A little frock behind the door,
A little shoe upon the floor.

A little lad of dark brown hair,
A little blue eyed face and fair,
A little lane that leads to school;
A little pencil, slate and rule.

A little blithesome maid,
A little hand within his laid;
A little cottage, acres four,
A little old-time household store.

A little family gathering round;
A little turf-heaped, tear-dewed mound;
A little added to his toil;
A little rest from harder toil.

A little silver in his hair;
A little stool, an easy chair,
A little night of Faith in gloom;
A little journey to the tomb.

—*Phila. Ev. Bulletin.*

VARIETIES.

Some of the Southern railroads are sadly out of repair. A local journal says of one of them: "This route is slow and sure. An experienced surgeon and undertaker are on every train. Passengers' valuables will be taken care of, whether slightly, seriously or fatally injured, or otherwise."

Some persons having recently praised to Dr. B—— the Prince of Wales' speech before the Royal Geographical Society, the Doctor rejoined, "I wrote out the speech, and did——hard work I had to keep it short enough for the Prince to trouble himself about getting it off by heart."

While the Knights Templar procession was moving in Philadelphia, a ragged boy came running out of an alley, yelling at the top of his voice: "Come quick, Jimmy! Here comes the sojers!" Jimmy, another ragged little fellow, rushed out to the street, and said: "Sogers, be d—d! Them's all gin-rals!"

The McConnellsville, Ohio, *Herald*, relates the following court scene: "At the last term of our Court of Common Pleas, in the case of Miss —— vs. ——, an impeaching witness was called and asked the usual question, "Do you know the reputation of Mr. —— for truth and veracity in the neighborhood where he resides?" "Well," said the witness, "his reputation for veracity is very good, but his reputation for veracity is considerably talked about." "What do you mean by veracity?" said the counsel examining attorney. "Why, I mean he's bad after the wimmin!"

Miss Anthony, having abolished slavery, annihilated the Republican party, and "repudiated" the Fifteenth amendment, is now urging in abolishing double beds. Hear her proclaim: "Every man, woman and child should have a bed to him or herself. Let those just going to housekeeping buy no double beds." You hear the edict, poor young couples! On pain of Miss Anthony and the Revolution, [illegible] double beds. No doubt Miss Anthony [illegible] if she had one, would [illegible]

Proposals for Boating Stone.

SEALED PROPOSALS WILL BE RECEIVED AT the Office of the Superintendent of Construction of the U. S. Custom House at Portland, Oregon, until 12 o'clock M., on the 27th day of July, 1869, for Boating 1,200 cubic yards of Stone from the quarries opposite Ash St. to the wharf at Portland.

The Contractor will load the boat at the quarries and discharge at the wharf at Portland and pay wharfage.

Payments will be made by the cubic yard of Stone, inclusive of all Freight, measurement to be made by the Superintendent, first on delivery, and 10 per cent. of all payments to be withheld until completion of contract. Payments in U. S. Currency. The delivery of materials will begin [illegible] and continue in such quantities and at such times as may be directed.

The [illegible] the right to reject any or all proposals. All bids must be accompanied by a bond of [illegible] in the sum of $2,000 as security that the bidder will accept and perform the contract if awarded to him. The sufficiency of the security to be certified to by the U. S. District Judge.

Proposals should be endorsed, "Proposals for Boating Stone," and addressed to E. St. John, Superintendent U. S. Custom House and Postoffice, Portland, Oregon.

jy12td E. ST. JOHN, Superintendent.

IN THE CIRCUIT COURT OF THE STATE OF OREGON for Multnomah County.—S. N. Arrigoni and [illegible] D. L. Arrigoni, Plaintiffs, vs James P. O. Lowndale, Millard O. Lowndale, by James P. O. Lowndale, his guardian, [illegible] Ruth A. Lowndale, by John A. Marshall, her [illegible] guardian, Wm. E. Cooper and Mary E. Cooper, his wife, John R. Lamb and Susan B. Lamb, his wife, and Ida Squires, by Wm. E. Cooper, her general [illegible] To Ida Squires, one of said defendants. In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled suit, by the first day of the next term of said court which shall convene six weeks after the first publication of this summons, to-wit: on the 8th day of November, 1869; and if you fail to answer the plaintiff's will take judgment against you, and a decree determining your claim to that real estate in the city of Portland, Oregon, known as lots (1) one, (2) two (7) seven and (8) eight in block (249) two hundred and forty-nine, and quieting the [illegible] or interest therein, and quieting plaintiff's title thereto, and for general relief prayed for in the complaint.

By order of Hon. W. W. Upton, Judge.

Sealed Proposals.

OFFICE CHIEF QUARTERMASTER DEPT. COLUMBIA, PORTLAND, Oregon, July 3d, 1869.

BY AUTHORITY FROM THE BREVET MAJOR General Commanding the Department, sealed proposals will be received at this office up to noon on the 26th of the current month, (July), for delivering at Fort Walla Walla, W. T., the following supplies:

360,000 pounds grain (Oats and Barley), more or less.
730,000 pounds Hay.

The Government reserves the right to receive the whole or any portion of the supplies that may be contracted for, and to reject any and all bids.

Bids must be in triplicate and the price stated in coin and expressed in writing, not figures.

The delivery of the supplies must commence on completion of the contract (if required) in such quantities as the exigencies of the service may demand.

No average bids will be considered.

Proposals will be received for the whole quantity or *any portion of it.*

The usual deposit of 5 per cent. on the amount of the bid is required.

Further particulars can be ascertained by application to this office.

FACTS WORTH KNOWING!

IF YOU WANT TO BUY A FARM YOU EXAMINE the soil, the lay, the locality, the title and the price. If you want to insure your life, examine the workings of the Company before you invest. If you examine you will

INSURE IN THE NEW ENGLAND MUTUAL LIFE INSURANCE COMPANY!

WHY?

BECAUSE you get your first DIVIDEND to HELP PAY YOUR SECOND PREMIUM. You do not have to wait 3 or 4 years for the distributions.

BECAUSE we have NO STOCKHOLDERS to draw from 12 to 25 per cent. on imaginary CAPITAL STOCK (personal promises to pay) amounting from $30,000 to $50,000 annually.

Because the NEW ENGLAND is a Mutual and is a Home Company in all our broad and beautiful country; an American Institution—the first one formed on the PURELY MUTUAL plan on this Continent.

BESIDES it is the only Company offering you the protection of the Massachusetts Law.

For example: A person aged 35, insures for $1,000, pays $26 50, say on the 1st July, 1869. Were he to die on the 4th July, 1871, 2 years and 3 days after, his policy would be paid. Thus:

Say amount Policy is	$1,000 00
Deduct two annual payments he has not paid, $26 50 each, and Interest	54 62
The family would receive	945 38

No Snap Judgment here. This is what we call EQUITABLE and MUTUAL.

Five annual payments keep the Policy in force 10 years and 56 days.

Policies on which Note has been given for one-third of the Premiums.

Five payments will continue in force nearly five years after payments have ceased.

On ENDOWMENT POLICY the time is prolonged in proportion to the amount paid.

Take the statements of no solicitor for other Companies of our beneficent workings, but call and satisfy yourselves. We will be pleased at all time to communicate every information.

THE New England Mutual

Is the only Company on this Coast that offers the above advantages to Policy-Holders.

The above examples are facts that are incontrovertible, and will be proven to the satisfaction of all persons calling on our agents.

NEW ENGLAND MUTUAL
LIFE INSURANCE CO.,
Of Boston,

Cash Assets	$7,000,000 00
Cash Distributions—1867	526,573 60
Cash Distributions—1868	786,197, 86
Total Surplus Dividend	3 513,772 41
Income for 1868	2,817,016 74

By the Acts of Massachusetts, incorporated into the General Statute of 1864, a policy of life insurance for the benefit of a MARRIED WOMAN OR ANY PERSON OR PERSONS SPECIFIED, goes to them independently of the Debts or Liabilities of the party who effects the policy.

SUMMONS—IN THE CIRCUIT COURT OF THE State of Oregon, for the county of Multnomah, ss. Bridget Winn, plaintiff, vs John Winn, defendant.—To John Winn, defendant: In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled action, within ten days from the date of the service of this summons upon you, if served within this county, or if served in any other county of this State, then within twenty days from the date of the service of this summons upon you; and you are hereby required to appear and answer the complaint herein filed against you by the first day of the term following the expiration of the time (to-wit: six weeks) prescribed in the order for publication of this summons, and if you fail to answer on the second Monday of November, 1869 the plaintiff will apply to the Court for a decree of divorce from the bonds of matrimony now existing between Plaintiff and Defendant and for such other and further relief as is prayed for in the complaint.

By order of Hon. W. W. Upton, Judge of said Court, made at Chambers on the 28th day of May, A. D. 1869.

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp. St. Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO.

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up, at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhœa or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchical and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhœa, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks, Board, Room and Treatment (in all ordinary cases).

N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsis Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure. From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife of the time, means or trouble they expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well.

Terms for Ladies, $20 a week, or $100 for six weeks (Board, Room and treatment).

DR. SMITH gives FREE Lectures to his patients every Wednesday evening, and also Lectures before the Ladies' Hygienic Society the first Wednesday in each month.

BARLOW J. SMITH, M. D.,
Proprietor and Consulting Physician.

R. S. MACBETH, M. D.,
Attending Physician. jun9d2m&w4t

Proposals for Rubble Stone.

SEALED PROPOSALS WILL BE RECEIVED AT the Office of the Superintendent of Construction of the U. S. Custom House at Portland, Oregon, until 12 o'clock M., the 9th day of July, 1869, for furnishing and delivering at the site of the building, 250 cubic yards of Rubble Stone from the Willamette River Quarries, of sound quality.

Proposals will be made for the cubic foot of stone delivered, inclusive of all freight, hauling, etc., measurements to be made on delivery by the Superintendent, and 10 per cent. of all payments retained until completion of contract. Payment in U. S. Currency.

The delivery of materials will begin immediately on signing of the contract, and to be completed in 30 days thereafter. The Department reserves the right to reject any or all proposals. All bids must be accompanied by a bond of two responsible persons in the sum of $1,000 as security that the bidder will accept and perform the contract if awarded to him. The sufficiency of the security to be certified to by the U. S. District Judge.

Proposals should be endorsed, "Proposals for Rubble Stone," and addressed to E. St. John, Superintendent Custom House and Postoffice, Portland, Oregon.

je24dtd E. ST JOHN, Superintendent.

NOTICE—THE CREDITORS OF MORROW & EARL, Bankrupts of La Grande, Oregon, will take notice that a general meeting of the creditors of said Bankrupts has been ordered by the Hon. W. Lair Hill, Register in Bankruptcy, to be held at the office of the said Register in the city of Portland, Oregon, on the 9th day of July, 1869, at 10 o'clock A. M., for the purposes named in the 27th section of the Bankrupt Act of March 2, 1867, and all such creditors can then and there appear and take part in the proceedings to be had at said meeting.

D. W. LITCHTENTHALER, Assignee.

COMMON COUNCIL.—Wednesday evening, July 14, 1869, the Common Council of the City of Portland met at the usual hour, his Honor Mayor Goldsmith presiding.

Present, Councilmen Bills, Breck, Croe, Lewis, Moffett, Porter

Journal of last meeting read and approved.

Councilman Besser appeared and took his seat

PETITIONS, MEMORIALS, &c.

A communication from the Mayor, relative to the cases of small pox reported on the ship *Onward*, together with the accompanying reports of the inspecting physicians, was read and placed on file.

A motion was made and carred that the Chinese passengers be detained at their present quarters below the city under the superintendence of the Mayor and the Committee of Health and Police

A communication from R F Hensell, relative to change of grade on Second street, was read

Petition of J. S Hill and others, for the improvement of North Seventh street, was read and referred to the Committee on Streets and Public Property.

Petition of Joseph Teal, for leave to construct a sewer on Yamhill street, was read and referred to the same committee.

Petition of W. L. Higgins to have assessment for street improvement refunded, read and referred to same committee.

REPORTS OF STANDING COMMITTEES.

Committee on Streets and Public Property reported adversely to the petition of E. Heintz for further reimbursement for damages to real estate caused by the extension of Oak street. Report adopted.

Committee on Judiciary reported that Messrs. Logan & Shattuck had been employed as associate counsel in certain cases against the city, for the sum of $300. Report adopted.

The Committee on Judiciary reported adversely to the petition of H L. Hoyt to be reimbursed for money paid by him in the Rosenheim case. Report adopted.

CLAIMS AGAINST THE CITY.

Steamboat *Eagle*, $50; Joseph Tucker, $127; P. D. & H. Co., $4 50; J. B. Congle, $3 25; P. D. & H. Co., $1 55.

The bill of D. Jacobi was referred to the Committee on Health and Police.

The bill of Dr. Shoemaker was referred to the Committee on Accounts and Current Expenses.

ORDINANCES.

An ordinance to amend an ordinance to provide for the time and manner of improving Clay street, between Fourth and East Park, read a first and second time, rule suspended, ordinance read a third time and passed.

An ordinance to provide for the improvement of Stark street, read a first and second time, rule suspended, ordinance read a third time and passed.

An ordinance to provide for the improvement of North Eleventh street, from Stark to B, read a first and second time, rule suspended, ordinance read a third time and passed.

An ordinance making appropriation of $500 out of the general fund to pay for advertising, read a third time and passed.

An ordinance establishing the grade of Second street, from Harrison to Lincoln, read a third time and passed.

MISCELLANEOUS.

A resolution instructing the Auditor to give the usual notice of the proposed improvement of certain streets, was read and referred to the Committee on Streets and Public Property.

A resolution was adopted instructing the City Surveyor to survey and mark the boundries of Eleventh street.

A resolution was adopted instructing the City Surveyor to survey and mark the boundaries of the proposed extension of Washington street.

Resolution appointing S. G. Reed, H. C. Leonard and Jacob Stitzel viewers of the proposed extension of certain streets.

A resolution instructing the auditor to issue warrants for the collection of delinquent taxes assessed for the improvement of certain streets, read and adopted.

A resolution was adopted authorizing the Mayor and Committee on Health and Police to allow the ship *Onward* to come to the dock at such time as they deem proper.

A communication from the City Surveyor relative to purchase of a large transit was read and referred to Committee on Streets and Public Property.

On motion, Council adjourned.

BOSTON—CHICAGO GRIDDLE.—Most of the papers have noticed the fact that Oregon has a representative in the International Regatta, soon to come off between a crew of oarsmen from Harvard College and a crew from Oxford University—in the person of Sylvester W Rice, of Douglas county, and formerly a student in the Willamette University. The Boston *Journal*, in its personal notices of the American crew says of our Oregon boy:

"Sylvester Warren Rice, of the class of '71, is the second oar of the four. He is 26 years of age. His home is in the State of Oregon and town of Roseburg. Some of the unread citizens of the country to which he goes, unless rumor heretofore has done them injustice, learning that an oarsman is coming from beyond the Rocky Mountains, will be liable to apprehend that an aborigine is to be intruded upon them. They will find but little of the Indian about him, and that only in the respect of muscular development, power of endurance and vivacity of nerve. His prominent trait as an oarsman is, perhaps, his long arms and reach, a quality which adepts in the rowing art know how to appreciate. He has been described as one of the 'Ward style of men.' He was one of the middle men of the winning crew of the June race of last year."

In another place the same paper says; "This may with propriety, be termed a *National* crew. Boston, 'cradle of the nation,' is honored in it with the chief place, held by one whom all will be proud to acknowledge a representative man; Concord, haunt of the muses, from seat of American literature, and place where 'the embattled farmers stood,' finds her son in the position second in responsibility; Chicago, the metropolis of the Great West, which in certain respects presents an epitome of the national life of the period, sends her son to try conclusions with the mother country in an arena where she has hitherto claimed pre-eminence; and Oregon, which but yesterday was a mythical land, whose great river, rolling 'heard no sound save its own dashings,' contributes one from among he numerous thousands to vindicate American congress before the nations of an ancient civilization. Freedom, literature, business enterprise, and the conquest of the wilderness, seem thus presented to the imagination, as if our history had been condensed into a single page"

GRAY'S HISTORY OF OREGON.—We have received some advanced sheets of Gray's History of Oregon which will soon be published. A fly leaf pasted in, states that the entire work will make a volume of 500 to 800 pages. The period covered by this history is from 1839 to 1849 inclusive. The contents of the volume are thus briefly set forth in the author's introduction:

I. A concise history of the early settlement of the country, a short sketch of many of the public men in it, their public character and proceedings, and the organization of the Provisional Government

II. The adverse influences that the early settlers had to contend with in coming to and settling in the country, fully explained.

III. The causes of failure of the Protestant Missions. The cause of Indian wars, and the causes that must tend to the utter destruction of the Indian race on the American Continent.

IV. The American history of the Hudson's Bay and Puget Sound Agricultural Companies

V. The Mining and Agricultural interests of the country.

So far as the specimen sheets appear, the matters of history are set down concisely and in an unaffected though not the less attractive style. The volume when published will be sold for $8 50 coin, or $5 00 currency

FROM THE DALLES FIREMEN.—The Committee of Arrangements of the Dalles firemen, writes us under date of July 13th:

Ed. Oregonian—An article appearing in the *Mountaineer* alleged that the reason the Fire Department of the Dalles did not attend the celebration in Portland on July 4th upon the very courteous invitation extended, was owing to the inactivity of or objection to so doing by our Chief, H. Schutz, Esq. The *Mountaineer* is mistaken as to the facts. Our Chief is not, and should not be to blame. On the contrary, he did all in his power, and urged in every way for the firemen of our place to accept the invitation, and having so done and acted, we, the Committee of Arrangements, feel we are doing only justice to a worthy officer to give a brief statement of the facts. Committee, J B. CROSSEN,
GEO A LIEBE,
E. BULGER,

PRETTY PLACES.—At the request of Marshal Saunders, we, yesterday, visited with him, one of the filthiest localities we ever had the misfortune to get into—in the middle of the block bounded by First, Alder, Second and Morrison streets. The premises were covered with all sorts of dead vermin, seeking piles of decaying matter, and divers things most unsightly. And there, under a blazing sun, they stink and shine and shine and stink, every day, with an offense twice as rank as that of the post's which smelled to heaven. Bad as the place is, however, it does not smell out on to the streets any worse than a number of other places in the city. Why such infernal holes have been allowed to remain all summer in the heart of the city, is unaccountable. It is consoling to know that Marshal Saunders will 'go after' the persons who are responsible for their existence and make them clean up or pay the city for doing it.

BASE BALL—MATCH GAME.—The game between the two picked nines, without regard to clubs, played at the East Portland grounds, Tuesday afternoon, resulted in thirty runs for each club, in nine innings, when darkness put an end to the game. Gilliland and Warren were the captains of the respective nines. The following was the score:

Gilliland's Nine.	2,	4,	4,	2,	4,	5,	5,	2,	2
Warren's Nine...	4,	5,	1,	5,	1,	6,	0,	6,	3.

Gilliland's nine having put out their opponents, on the seventh inning without a run, claim the best of the game

TALKING TO HIS CONSTITUENTS.—Mr S Garfields, Delegate to Congress elect, from Washington Territory, has been spending a couple of weeks among his constituents in the eastern part of the Territory. We notice by the Walla Walla *Statesman* that he addressed the people of Walla Walla last saturday on the Material Interests of Washington Territory. We are detailed that it is his intention to visit all parts of the Territory, to converse with the people, to hear and see what is wanted in the way of legislation for each section, to see the resources and learn precisely what is needed for their development, so that he may represent his people in all respects intelligently. We commend this search after the right plan and line worthy to be adopted by every representative of the people

SCHOOL REPORTS.—The following is the report of the South School for the term recently closed

Miss Jaunetta Morrison, Teacher.—Number of boys enrolled 32, number of girls 14, total 22; average daily attendance 17.

Colored School—Miss A. S Northrup Teacher. Number of boys enrolled 18, number of girls 2, total 20, average daily attendance 18.

Roll of Honor—South School Rose Adams, Ella Terwilliger, Clara Adams, Arlina Fahrener, Annie Tice, Anna Bevis, Hattie Whitehead, Thirsa Stewart, Frank Huber, Samuel Stevens, Nathan Burchard, Edmund Burchard, Milton Stevens, Samuel Hunter

DEATH OF AN OLD CITIZEN OF PORTLAND.—Mr H Wasserman, formerly a well known and highly esteemed citizen of Portland, died at San Francisco on Tuesday, the 13th. The melancholy news was telegraphed to his brother Hon Phillip Wasserman of the city, yesterday morning. It was among the last expressed wishes of the deceased that his remains should be buried in the Masonic cemetery near this city. Accordingly the body accompanied by the family, will be brought here by the steamer *Moses Taylor*, which sails from San Francisco for Portland to day. The deceased came to this city in 1852 and resided here for many years

INSURANCE.—Mr. James Wilson, whose house and barn were destroyed by fire on the morning of the 5th desires us to state that he had no insurance on the North British Fire Insurance Company, of $700 on the dwelling, which was totally destroyed, and $200 on the other which was damaged; that the agent of the company in this city, C P Ferry, has made examination of the premises, and has agreed to pay the entire loss on the house destroyed and $300 on the damaged house. Mr Wilson is justly gratified with the promptness and fairness with which the company has assumed the losses on its policies

THE SMALL POX.—Dr. Chapman, who is attending upon the Captain of the bark *Onward*, informs us that his patient is convalescent. One or two of the seamen are on the sick list—not affected with small pox—but recovering. None of the Chinese passengers are sick and Dr. Chapman thinks they are not likely to have any small pox among them. Most of them had already had the disease in China. The bark is undergoing a thorough course of cleansing and fumigation, and will be in fit condition early next week to come to the wharf and unload

SAILING OF THE ORIFLAMME.—The steamship *Oriflamme* sailed at 5 o'clock last evening for Puget Sound, taking the members of the House Committee of Ways and Means, Ben Holladay, and a number of invited guests. The steamer will call at Victoria, make the tour of Puget Sound and return to Astoria about next Monday or Tuesday. The *Gussie Telfair* will take the passengers for California down the river, on Monday, and connect with the *Oriflamme*, and the latter steamer will then proceed to San Francisco, and the *Telfair* to Victoria

AGRICULTURAL MACHINERY.—It is very surprising to see what a great number of agricultural machines, are going this season into the interior of the valley. For a long time there has been scarcely a day when the boats have not taken a number of harvesting, haying or threshing machines. We are told that one house had, last week, a dozen orders for headers, beyond its ability to supply.

VELOCIPEDE RACE.—The first genuine velocipede race in this city took place last evening, between Johnny Kearney and Isaac Gill, for a wager of $20. The contestants ran twelve blocks on B street, over the planked roadway. Kearney won by about one hundred feet, in 2:08, the distance being a little more than half a mile. The race was witnessed by two or three hundred people

GEORGE FRANCIS TRAIN'S NEXT LECTURES.—Train went to the Dalles yesterday to lecture there last evening. He informs us by a note that upon his return he will lecture at Oregon City on Friday night, at Salem Saturday night, and then go to Albany, Eugene City, Jacksonville, Yreka, Chico, and thence home through California, Nevada, Idaho, Utah, Montana, etc

DRAMATIC ENTERTAINMENT AT OREGON CITY.—To-night at Washington Hall, Oregon City, Mr and Mrs. Bates will give a drawing-room entertainment, playing "A Morning Call" and a "A Conjugal Lesson," in which Mrs. Bates will sing two popular songs. The bill is an excellent one and ought to draw a full house.

TO CARPENTERS.—We would call attention to the advertisement of combination tools, by Mr Barrett in today's issue. These tools are said to be of the greatest utility of anything yet invented for the use of carpenters in the various departments of mechanics to which they are applicable.

SHOOTING AT IDAHO CITY.—Through private sources we hear that on the 5th of July, a man named J. A. Abbott, formerly of Josephine county, Oregon, shot, at Idaho City, his wife and a man whose name we did not learn. The letter by which the news came did not state particulars.

SALUTE AT VANCOUVER.—By direction of General Crook the Military Band at Fort Vancouver were in attendance at the wharf to receive the Committee of Ways and Means on their way down the river yesterday, and they were received with an artillery salute and appropriate honors.

DRAMATIC READINGS.—The Walla Walla *Statesman* says "Miss Mattie Field, late of Bates' troupe, Portland, will give a dramatic entertainment, at Bank Exchange Hall, on Saturday of next week. The entertainment will consist of readings from the poets, recitations, etc."

SCARCITY OF HAY.—The *Farmer* advises everybody to save all the forage they can, as the crop of hay throughout the State is unusually light. Much of the late sown grain, too short for harvesting as grain, will not, either, pay for cutting as hay.

FROM SAN FRANCISCO.—The steamship *Moses Taylor* will sail from San Francisco for Portland, this afternoon It is expected she will arrive at Astoria in time to bring up the Portland excursionists per steamer *Oriflamme*.

PERSONAL.—Hon O Jacobs, Associate Justice of Washington Territory, left this city yesterday morning, for Olympia, to assume the duties of his office

FREIGHT FOR SAN FRANCISCO.—The *Oriflamme* took away last evening about two hundred tons freight, of which a considerable proportion was wool.

AN EXCELLENT OPPORTUNITY is now offered to buy dry goods very low at the store of KOHN & FISHEL, who positively will sell all their dry goods at cost, being determined to close that branch of business. A call at their store, No 91, Front street, will save a purchaser at least twenty per cent.

G. F. TRAIN *preaches* but does not always *practice*—for he patronized the Oregon Dispensary and used our medicines to cure his hands that caught those *large* Salmon. Since his lectures on Doctors and Drug Stores, we have had an unprecedented run for our numerous remedies, toilet articles, etc., etc. It has been said that Mr Train was induced by us to deliver that lecture, but we assure our numerous patrons that we do not use such means to obtain patronage. We do the largest trade because our Druggists are the most competent and our medicines and goods are fresh, pure and cheap.

NOTICE.

WE TAKE PLEASURE IN CALLING the attention of dealers to a valuable Patented Improvement on Knives, Plated on Spoons and Forks, in which these parts are exposed to the wear and tear

EXTRA COAT OF SILVER!

THREE TIMES THE USUAL THICKNESS

[illegible] the handle heel of the [illegible] Spoons back [illegible] and Forks always wear through on these exposed points, while the plate is yet good on the parts of the article. The new process will add THREE TIMES TO THE DURABILITY of goods so plated

Knives, forks and spoons stamped "1847 ROGERS BROTHERS ALWAYS" are Electro Plated by the new Patented Process

We have now been before the public since 1862, manufacturing ELECTRO-PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfaction, supplying, as it does, all of the advantages of silver in durability and beauty. We wish to call particular attention to the hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. All goods plated on this metal bear our trade mark, and the plating is warranted THREE TIMES THE USUAL THICKNESS

NATIONAL
LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
Washington, D. C.

CHARTERED BY SPECIAL ACT OF CONGRESS!

APPROVED JULY 25, 1868.

CASH CAPITAL,
$1,000,000.

OFFICERS:

CLARENCE H. CLARK, Philadelphia, President.
JAY COOKE, Chairman Finance & Executive Committee,
HENRY D. COOKE, Washington, Vice President.
EMERSON W. PRET, Philadelphia, Secretary & Actuary.
H. S. TURNER, Washington, Assistant Secretary.
FRANCIS G. SMITH, M. D., Medical Director.
J. EWING MEARS, M. D., Assistant Medical Director.

THE ATTENTION OF PERSONS CONTEMPLATing insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno K Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says. "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

POLICIES ISSUED
IN GOLD OR CURRENCY.

The Daily Oregonian.

TUESDAY MORNING, JULY 13, 1869

From Lake Superior to the Pacific Ocean

The Northern Pacific Railroad Company comprises the names of many of the very first railroad and commercial men in this country In this company the interests of New England, New York, Pennsylvania, and all the Lake States are represented The work before them is a gigantic one, and, being obliged to rely to a great extent on the resources of private capital, instead of having Government aid in bonds to build the road, it is necessary for them to proceed with deliberation, and to make preparations adequate to the magnitude of their work, so as to prevent failure. With this idea in view they are now combining all the strength that can be brought to bear on their enterprise. Most of the great railroad lines which begin at the Atlantic seaboard and terminate on the Great Lakes have already been enlisted in the scheme. Parties connected with the enterprise are now in Europe for the purpose of making arrangements with capitalists there The Commission which has just passed through this city have come out here with a view of making such preliminary observation as will satisfy leading capitalists who desire to enlist in it, of the entire feasibility of the enterprise. The Company will take no decisive step until they are perfectly assured of such a combination of capital as will render the progress of the work rapid and its completion certain. They hope to effect speedily all necessary arrangements; and it may be relied on with perfect certainty they are working in this matter with all possible energy and with a settled determination to push the work through. The great advantages offered by this route are familiar to all. The long stretch of water transportation from the head of Lake Superior to Buffalo is available for a Northern route and will give it facilities which no other can possess. Then a railroad from Lake Superior to the Pacific ocean will pass almost uninterruptly through a belt of excellent land capable of sustaining a large population. There is every reason to believe that this great work will begin very soon; yet those who are impatient for it should remember that to start so gigantic a project with any prospect of success requires the most elaborate preparation, together with such a concentration of capital as has never before been known.

Good Republican Argument.

No accurate statement of the condition of the public debt at the close of the month of June was telegraphed here. In New York papers of the 2d July, however, we find that the reduction for June was so large as to be quite surprising. The actual decrease during that month was $16,419,232. The decrease for the four months since Grant became President has amounted to $36,460,779, which is at the rate of $110,000,000 a year. Here are some stunning facts for the croakers. The reduction of the debt since the close of the war, or since the 31st August, 1865, when the debt attained its maximum, is shown to be $314,854,401. And even if the bonds bearing currency interest, loaned to the Pacific roads since 1865 be taken into the account, the net reduction of the debt is $257,474,081. The present debt, exclusive of railroad bonds, is $2,441,555,170.

Thus while Democrats are advocating repudiation and declaring that the debt can never be paid, a Republican Administration is reducing the debt at an average rate of ten millions of dollars a month. The Republican party is thus fulfilling its promises to the people and the Democratic party continues its obstructive and dishonoring policy as heretofore. This rapid reduction of the debt is just as good Republican argument as we want. Every dollar by which the public debt is reduced, not only decreases the principal but diminishes the burden of taxation. The Government is in every way strengthened, and the public welfare in every way increased, by the reduction of the debt.

Our Late Visitors.

It was unfortunate that the eminent gentlemen who have just been paying a brief visit to our State could not have commanded time enough to enable them to see more of it. They visited, outside of this place, only Oregon City and the Dalles, and therefore merely saw the two gateways to the magnificent country which is drained by the Wallamet and Columbia rivers. Yet their impressions in regard to the country were very favorable, and several of them expressed their surprise to find so many evidences of the great extent of our resources and trade. They spoke very encouragingly of the prospects of Oregon, and joined in the common opinion that the most necessary thing for the State was to obtain liberation from California control by securing an independent line of railroad. Mr. Julian, of the Committee on Public Lands, thinks of returning this way and proceeding overland to Sacramento. The rest of the party will go direct from the Sound to San Francisco.

In General.

The Yamhill *Courier* has a stunning article on a "monarchy," in which the editor promises to employ all his energies to defeat any and every monarchical movement that may be started in our land. We are sure the country is safe, now.

The *Unionist* says that "the Democracy of Polk county recently held a meeting at Dallas for the purpose of tendering a formal invitation to Brick Pomeroy to visit that portion of the moral vineyard. Thus is our State lowered in the estimation of people abroad."

Gov. Flanders, of Washington Territory writes a long letter to some gentlemen at Walla Walla assuring them that he wanted Anderson Cox, Esq., appointed Governor and didn't want the appointment himself, but President Grant *forced* it on him. Certainly! The President is noted for this sort of thing! His only trouble has been to find men who would take appointments!

We would like for some of the Democratic journals which have been lifting with us on the free trade question to tell us just what they want. Are they in favor of a tariff to provide a revenue adequate to the wants of the Government, or are they in favor of abolishing the duties on imports, and levying a direct tax on the people to make up the deficiency of $180,000,000 a year, in gold, in the revenue, that would result from free trade?

Indiana finds that Republicanism pays. That State owes but little more than one-fourth as much as five years ago, the outstanding bonds now amounting to less than two million dollars. None of this is due, and in fact it has been difficult to persuade the holders of the bonds to receive their face in anticipation of the time of maturity. More money has accumulated in the treasury than the officers know how to employ profitably.

John C. Breckinridge was recently in Minnesota, where he saw a flag, the stars and stripes floating in the breeze. He took off his hat, and said, "We are all reconstructed changed. That's the old flag once all thank God for it." This scene is just like one of those described so graphically by Orpheus C. Kerr in the early part of the war when prisoners brought into the Union lines expressed their surprise on learning that they had been fighting against the "old flag," embraced its folds with affectionate fervor, "took the oath," and watched for the first opportunity to get back to the Southern army.

The Sacramento *Union's* commercial report presents the following view of business in the latter city: "In general business exhibits no improvement Front street presents a scene of dullness which tells the tale of decreased trade in a manner that does not admit of any unbelief While the receipt of many descriptions of light goods via the transcontinental railroad is a convincing proof that Eastern merchants are competing for our trade at our very doors the arrivals from foreign supply ports continue very numerous, adding largely to stocks of nearly all descriptions of goods Jobbers and auctioneers complain greatly at the dullness of business at this season of the year, when country merchants usually lay in their fall stock."

The political canvass in the State of Maine will be somewhat exciting this year, caused by the determination of the ultra temperance men to run a third candidate. They do not run the risk of throwing the election into the hands of the Democrats, as a majority vote is required for the choice of a Governor The only way in which they could succeed would be by throwing the election into the Legislature, and, having at the same time secured a majority of both branches, choose their own candidate An impression has gone abroad among the more radical temperance men that Governor Chamberlain is not "sound" on the temperance question, and this raised the opposition to him in the convention. The split arose from the refusal of the last Legislature to re-enact the imprisonment clause in the prohibitory law, passed in 1867 and repealed in the following year in consequence of a reaction against its severity.

A correspondent of the New York *Tribune*, writing from North Carolina, says that about half the colored children in the schools of that State—children born, of course, during the existence of the patriarchal system—are so nearly white that nobody can tell to which race they approach the closer; but since the war has given the freedmen the control of their own families, amalgamation has almost wholly ceased, proving that it was the whites, not the blacks, who were responsible for it of old. It is supposed that the colored people of the State, during 1868, contributed more money for the support of the schools than the Whites. About 40,000 of them have learned to read since the war, while not more than ten thousand of the whites have acquired so much education during the same period. The probabilities are that in the next generation the colored people will have progressed far beyond the "poor whites," who by all accounts are the most hopelessly degraded class in the community

Railroad Meeting at La Grande.

We take the following from the La Grande *Sentinel*:

At a meeting of the citizens of Oregon, held in LaGrande, June 26th, 1869, the following proceedings were had:

The meeting was called to order by the election of George Wright, President and J. L. Morrow, Secretary.

On motion, Daniel Chaplain stated the object of the meeting, after which the following resolutions were unanimously adopted:

1. *Resolved*, That we, the citizens of Eastern Oregon, invite the citizens of Oregon, Washington and Idaho Territories to join with us in organizing a railroad company, to be called the "Washington, Oregon and Idaho Railroad Company," for the purpose of constructing a railroad, commencing at some point on Puget Sound, thence on the most direct practical route through Umatilla, Grande Ronde, Powder River, Burnt River and Boise valleys, to intersect the Union Pacific railroad at some point west of Green River.

2. That we ask our Senators and Representatives in Congress to use their influence to have Congress grant said company the right of way, together with a grant of land and other Government aid for the construction of said railroad.

3. That we ask the citizens of Washington and Idaho Territories to join with us in asking their delegates to Congress, as we ask our Senators and Representatives in Congress to use their influence to have our National Congress, at its next sitting, to grant said company the right of way, an appropriation of land and other aid for the construction of said railroad.

4. That the following named gentlemen be and are hereby appointed a committee of correspondence: J. L. White and J. H. Fiske, Umatilla county; Baker and Daniel Chaplain, of Union county; J. G. Wilson, of Wasco county; A. H. Brown, of Baker county, D. S. Baker, of Walla Walla county, Henry Failing, of Portland; Governor Ballard, of Idaho Territory, and Elwood Evans, of Washington Territory

5. That the proceedings of this meeting be published in the Grande Ronde *Sentinel*, and that the various papers of Oregon, Washington and Idaho Territories, are requested to copy.

On motion, the meeting adjourned to meet again at the suggestion of the above named committee.

GEORGE WRIGHT, Chairman.
J. L. MORROW, Secretary.

NEGRO ELIGIBILITY TO OFFICE IN GEORGIA.—The Macon *Telegraph*, a leading Democratic paper in Georgia, frankly concludes that, by the recent decision of the Supreme Court of the State, negroes are just as eligible to all civil offices as whites. In concluding an article upon the subject it says

No well-informed man can have a doubt that the Federal Government is determined to reseat the negro in the Legislature at all hazards, and that all our opposition will be futile. The refusal of the Legislature to respect this decision of the Supreme Court will only bring about a legislative purgation by bayonets; but we should care less for that than to see the Legislature assume an indefensible and untenable position, against an authoritative though unsatisfactory exposition of the law, or adopt any temporary expedients which would be practically unavailing against the dominant despotism In the midst of all our troubles let us preserve respect for law Let us arm ourselves with patience and look forward in hope to better days

The latest sensation in New York is a ritualistic christening performed on his own baby by the Rev. Dr. Ewer, so widely known by his lectures on the "Failure of Protestantism" The little heathen, wrapped in a blanket, was escorted into the church by a procession of acolytes bearing candles. Dr. Ewer, taking a lighted taper, dipped it into the font, and then immersed his baby, who was guiltless of even a fig leaf, three times The infant did not like the operation and squalled lustily, which nurses consider a favorable symptom During the ceremony, Dr. Ewer charged his "stole" several times, and at one point placed it on the baby, who was then dressed in a magnificent robe, carried home in procession, all the ladies present saying he was "a little dear." The whole affair is elaborately described by Jennie in the New York papers, and we doubt not ritualistic christenings will become fast unable in that wicked city

The pictorial feature of *Moore's Rural New Yorker* for July 3, is a large wood cut, from a drawing by Edwin Forbes, of President Grant's stable of horses, seven in all The likenesses are said to be very faithful and the drawing is worthy of the high reputation of Mr Forbes in this favorite specialty The number has, also several new and attractive features in its reading matter

GENERAL NEWS ITEMS.

The Mexican *Independent* speaks of "that part of the continent which Anglo-Saxons rarely cross."

The Montana Britannia Company manufactures annually $2[illegible],000 worth of nickel silverware

The negroes of Russellville, Kentucky, have held a chivalric "tournament," with a "queen of love and beauty," etc.

Frau Carl Schurz has been invited to deliver an address in German, at the great international Saengerfest in Baltimore in July

The St Louis *Times* says that there are about [illegible],000 opium eaters in that city, and that they consume 15,000 grains of morphine daily

A New York dispatch says that the *Round Table* has been purchased by Mr. Roosevelt of the *Citizen* and the two journals will be merged in one

The owner of the largest personal estate in the country is Cornelius Vanderbilt, the figure being $20,000,000 The Astors have about $5,000,000 in personal property

A Columbus, Ohio, street railroad conductor found a bright looking babe in his car recently with a $100 "greenback" to pay for its care. The conductor has adopted the child.

The Rev Grattan Guiltness, who, some years ago, made a pulpit sensation in this country, dropped dead on the floor of his office at Drumcondra, Ireland, quite recently.

The contract for the collection and exchange of news between the Western Associated Press and New York Associated Press has been extended for one year from August 1st.

Republicans from the South allege that Chief Justice Chase, during his recent tour has been actively conferring with Southern conservatives with a view to organize a new political movement.

Gov. Claflin, of Massachusetts, when he signed the last prohibitory bill, used two pens, one for William and the other for Claflin, so as to give a brace of Assemblymen a chance to possess them selves of the utensils.

It is said that the bodies of the soldiers killed in the memorable Fort Kearney massacre have been found to be petrified. The victims of that affair numbered eighty one, and were buried in boxes, each box containing eight bodies

St Petersburg is the *entrepot* of the fur trade. A correspondent writes that of the 10,027,000 furs sold in that city last year, about 9,000,000 were from Siberia and 186,500 from Alaska. The value of these furs was about $186,400 in gold.

Captain Marryatt says, in one of his nautical romances, that in England they put the fool of the family into the navy. With us, says the New York *Independent*, something of the same sort prevails in the administration of our affairs at Washington.

The fifteenth constitutional amendment has passed both branches of the New Hampshire Legislature The Lower House has passed a bill establishing a State constabulary force, which, if it passes the Senate, will be submitted to the people for ratification next November.

The New York *World* commends the introduction of Mongolians in the Southern States, and says this movement to introduce a hardy, industrious and frugal race in the place of blacks, is not only important, but, if attended with success, will work out a great revolution in the South.

A dispatch from Washington of the 1st of July states that, "President Grant and ex President Johnson both visited Georgetown College to day, but the invitations to both gentlemen were so nicely timed that no meeting took place. President Grant was invited to attend the exercises and distribute the premiums, and Mr. Johnson was asked to dinner. Almost instantaneously with the departure of President Grant's carriage from the north entrance, the conveyance of Mr. Johnson arrived on the south side, and so those who were on the *qui vive* for something to occur were disappointed by the superb management of the conductors of the College."

A Washington dispatch of July 1st says To-day the mails on two thousand routes, directly under charge of the Contract Bureau of the Post Office Department, were started on a new term of service. Postmaster General Creswell has introduced an entire new system of surveillance, which this morning, the first day of the fiscal year, went into operation over every State by divisions and districts, embracing every post office and every mail route in the land, and so connected that in a short space of time the efforts and energies of two or three divisions can be combined in the suppression of wrong doing, or in promoting the interests of the department in any emergency.

PACIFIC RAILROAD SCENERY. The Rev. Dr Eliot, of St Louis, writing to the *Democrat* of that city of his tour over the Pacific Railroad, says

I have attempted no description of the wild waste of country through which we pass in crossing the continent beyond the few general terms which are extorted from one, whether he will or no, and these are very apt to be in superlatives. But while the whole landscape of a thousand miles or more is such that you can hardly call it anything but dreary and forbidding and desolate, it is far from being tame or monotonous It is no sandy desert of Sahara, nor mere grassless prairie Take any given space of twenty miles, and it is a picture of exceeding beauty and grandeur I could wish for no more beautiful outlook from my windows than those wonderful gray rocks and sudden uprising, come like, or in peaks, called *buttes*, and those broad sweeps of rolling prairie, with boundless horizon, without a green spot anywhere, nor tree, nor running water, nor lake, but always the dull colored sage bush and grease weed, like stunted old current bushes grown gray and mossy, and no animal life far or near to relieve the loneliness, no birds, nor beasts, nor insects, nor human habitations; but all made absolutely glorious by the atmosphere which is more than clear and transparent It is radient, investing everything with a glowing light, giving to every object a clear, sharp outline, which seems transparent, while the bright blue sky, under which every object stands out with such bold and startling individuality, stands off at an indefinite distance. Those huge rocks, fifty miles off we could walk to them in half an hour but are tired of watching them and admiring their changing phases, as we approach them at railroad speed, for two hours and more, while they seem scarcely to come nearer until we are right upon them, instead of weariness from want of interest, our eyes absolutely ached with looking. It is always the same, yet always different, filling our hearts with amazement and awe

TOO RICH FOR HIM.—The White Pine *News* has this striking item

A old friend of ours, who is in the sheep business on the Truckee, came to this city last week to examine our mines He had invested a large sum of money in a private business to venture here several months ago, and expected to draw his original capital and have his business go on. He left his baggage in Hamilton We pointed out his store down the mountain side, but alas! his agent was "busted" Turning in disgust, he bent his steps to Hamilton, when lo! his baggage was stolen, and now he has not a second shirt! In brief, he is going back to his sheep ranch, laboring under the impression that White Pine is a little "too fast"

WHAT FALSE CALVES ARE MADE OF.—The New York *Sunday Mercury* is guilty of the following exposé

Regular false calves are manufactured and sold in extensive demand the said false calves being composed of tambe and other wood being woven into the material of merino leggings, just like a pair of masculine drawers, sometimes bran is used, and in all cases the imitation is very artistic and perfect In England, good false calves can be procured for about thirty shillings and in New York ago I articles can be procured for from seven to eight dollars warranted to work in every respect like a natural limb and oftentimes much better At one theatre in this city, 24 pairs of all false calves are used in another, about 27, and in another, 15

THE WEST.

The army disbursements on this coast are about [illegible],000 dollars a year

There were 37 patents in the San Francisco Patent Office on the 1st of July, and 249 in the hopper

The Bank of California has sold its interest in the Montgomery street extension to the Huber man Bank for $1,100,000 cash.

The latest Democratic amusement in San Francisco is that of throwing Cayenne pepper into the eyes of Chinamen The police look on and think it "fun"

A letter from Boise City states that the Assay Office is being built in the upper end of town. Merchants are purchasing their fall stocks of goods at Chicago

A colored man appeared in the San Francisco Fourth of July procession among the journeyman shipwrights He was the only representative of his race in the line.

A single grain of wheat in Boise valley has produced one hundred and twenty stalks bearing heads averaging thirty grains each. He was a patient fellow who counted them.

The Democratic party in California is making a fight in the present political campaign in opposition to Chinese immigration. Just as if they could prevent it if they should succeed.

The heat was so intense in Marysville on Sunday, June 27th, that birds were known to die from the effects of it. The *Appeal* says it was the hottest day the people there had known since 1852.

The price of Oregon oats has been from 5 to 15 cents higher, per cental, at San Francisco, all through the season than California. Oregon sent to California during the year ending June 30, 1867, 122,887 centals of oats, against 10,325 centals for the like period ending June 30, 1868.

Senator Cole on the Chinese Question.

The following letter from Cornelius Cole on the question of Chinese immigration was written to a gentleman in San Francisco, and was furnished to the *Alta* for publication.

WASHINGTON, D. C., June 27, 1869.

DEAR SIR Some of your remarks about Chinese immigration are convincing, but I cannot indorse all you say on that head. Their labor is undoubtedly an advantage to us I suppose you would not hire one unless you believed his services were worth more to you than his wages, or unless you were willing to exchange your money for his labor. A great portion of the wealth of a country is reproduced annually, and if the industry of a country were to be suspended only for a single year, everything would go to destruction. Labor is the great reliance of every civilized nation, and few places are more in need of it than California. She was more in want of it formerly than now. The Chinese have supplied a very considerable demand We should have lacked many of the evidences of material prosperity we now possess, but for them, and I do not know that you can point to harm they have done sufficient to offset the good they have effected. They are certainly an industrious and frugal people, and possessed of far more enterprise than mere heathens. They are not barbarians in the common sense of that word.

It seems many are coming to our coast at present; but I have no fears of the State becoming overrun with them. The distance across the Pacific is too great and the outlet on this side too extensive They will be apt to find their way into Mexico, and there, in my judgment, is the proper home for this class of immigration, and they will find it in due season. They possess just the virtues which the Mexicans lack. Their habits of labor and thrift would convert the fertile wastes of that country into gardens. The Mexicans will not work, the Chinese will not be idle. They are as opposite in habits as possible. The one would keep the country forever poor, the other speedily enrich it. Mexico, though abundantly endowed by nature, is noted for its poverty and insecurity, and so it will remain while it depends upon the Indian and Spanish races for its prosperity. China, on the other hand, is one of the richest countries in the world, and she has been made so by the industry of her people. Of these people she can spare enough to regenerate Mexico and not miss them A small percentage of the natives of China transferred to Mexico would instill a new life into that country. Of the two civilizations, judged by every test, that founded by Confucius far surpasses that found in the land of the Montezumas.

Should the Chinese continue to pour down upon our Pacific coast so as to excite the fears of our people, it would be an easy matter to turn the tide to the southward, where there is room and scope enough for all. There is an unlimited field, fresh for the exercise of their habits of wealth-making and wealth-preserving What is now little less than a dreary waste, would, under the magic influence of labor, bud and blossom as the rose.

There ought to be no objection to an outlet upon this broad continent for a portion of the pent up populations of China and Japan. Besides Mexico, nearly all of Central and South America is open to them, and mankind would be greatly benefitted by their coming. The wealth and happiness of the world would be indefinitely increased thereby

I cannot sympathize with that eminently Chinese policy excluding from the uncultivated fields of the New World any people who desire to increase the number of blades of grass and ears of corn. It has long been our proudest boast that America is the asylum of the oppressed of all lands, and if the crowded population of Asia as well as of Europe desire the privilege of expending their labor here, let them come. Our immigration from Europe this year is unusually large—more than 25,000 in excess of last year at this date. These tides may meet and possibly mingle, but it is more likely that the Asiatic portion will be deflected southward, where a more congenial home for them can be found

I can remember no country that has not been benefitted by legitimate immigration. Our own is a conspicuous example of this In some cases we could have desired a better class of immigration, but we have repelled none, and the general result has been advantageous. The character of population, independent of race, depends much upon the country and climate in which they are thrown and the descendants of the Chinese, should their descendants grow up in this country, may conform closely to our habits of thinking and acting. Such, at all events, has been the case with every other race that has come to this country. If, in that event, they should claim and be permitted to exercise the privileges of citizenship, no evil can come of it. There is not, as I can discover, the least likelihood that the native born Chinaman will ever exercise or claim any such privilege. He will never become an element in our politics for the two distinct reasons—that he could not if he would, and he would not if he could.

But, independent of this aspect of the case, we should not forget that the Chinese are, almost to a man, skilled in the production of some articles of great importance to us, which we cannot produce without them, but which can be produced by them probably as well in our country as in their own. This said, when exercised upon our own soil, and in our own shops, becomes American, and we reap the advantage of it While we have an abundance of room, let any people come who come armed with implements of industry alone, whose arts are the arts of peace, and not of war, and whose aim is production, and not destruction.

Truly yours, C. COLE.

The New York *Sun* asserts that Mr. Lincoln once predicted that Schuyler Colfax would at one time be the President of the United States

WM. R. SEWALL and J. B. SPRENGER

Take this method of notifying their friends, the traveling public, that they have disposed of their interest in the Western Hotel and hereafter will continue to manage the COSMOPOLITAN, which in the future as in the past, will always maintain its reputation as the BEST and only FIRST CLASS Hotel in the city.

SEWALL & SPRENGER, Proprietors
Portland, July 1, 1869 dtf
